

# Quantasphere

*100% Unhackable Communication*

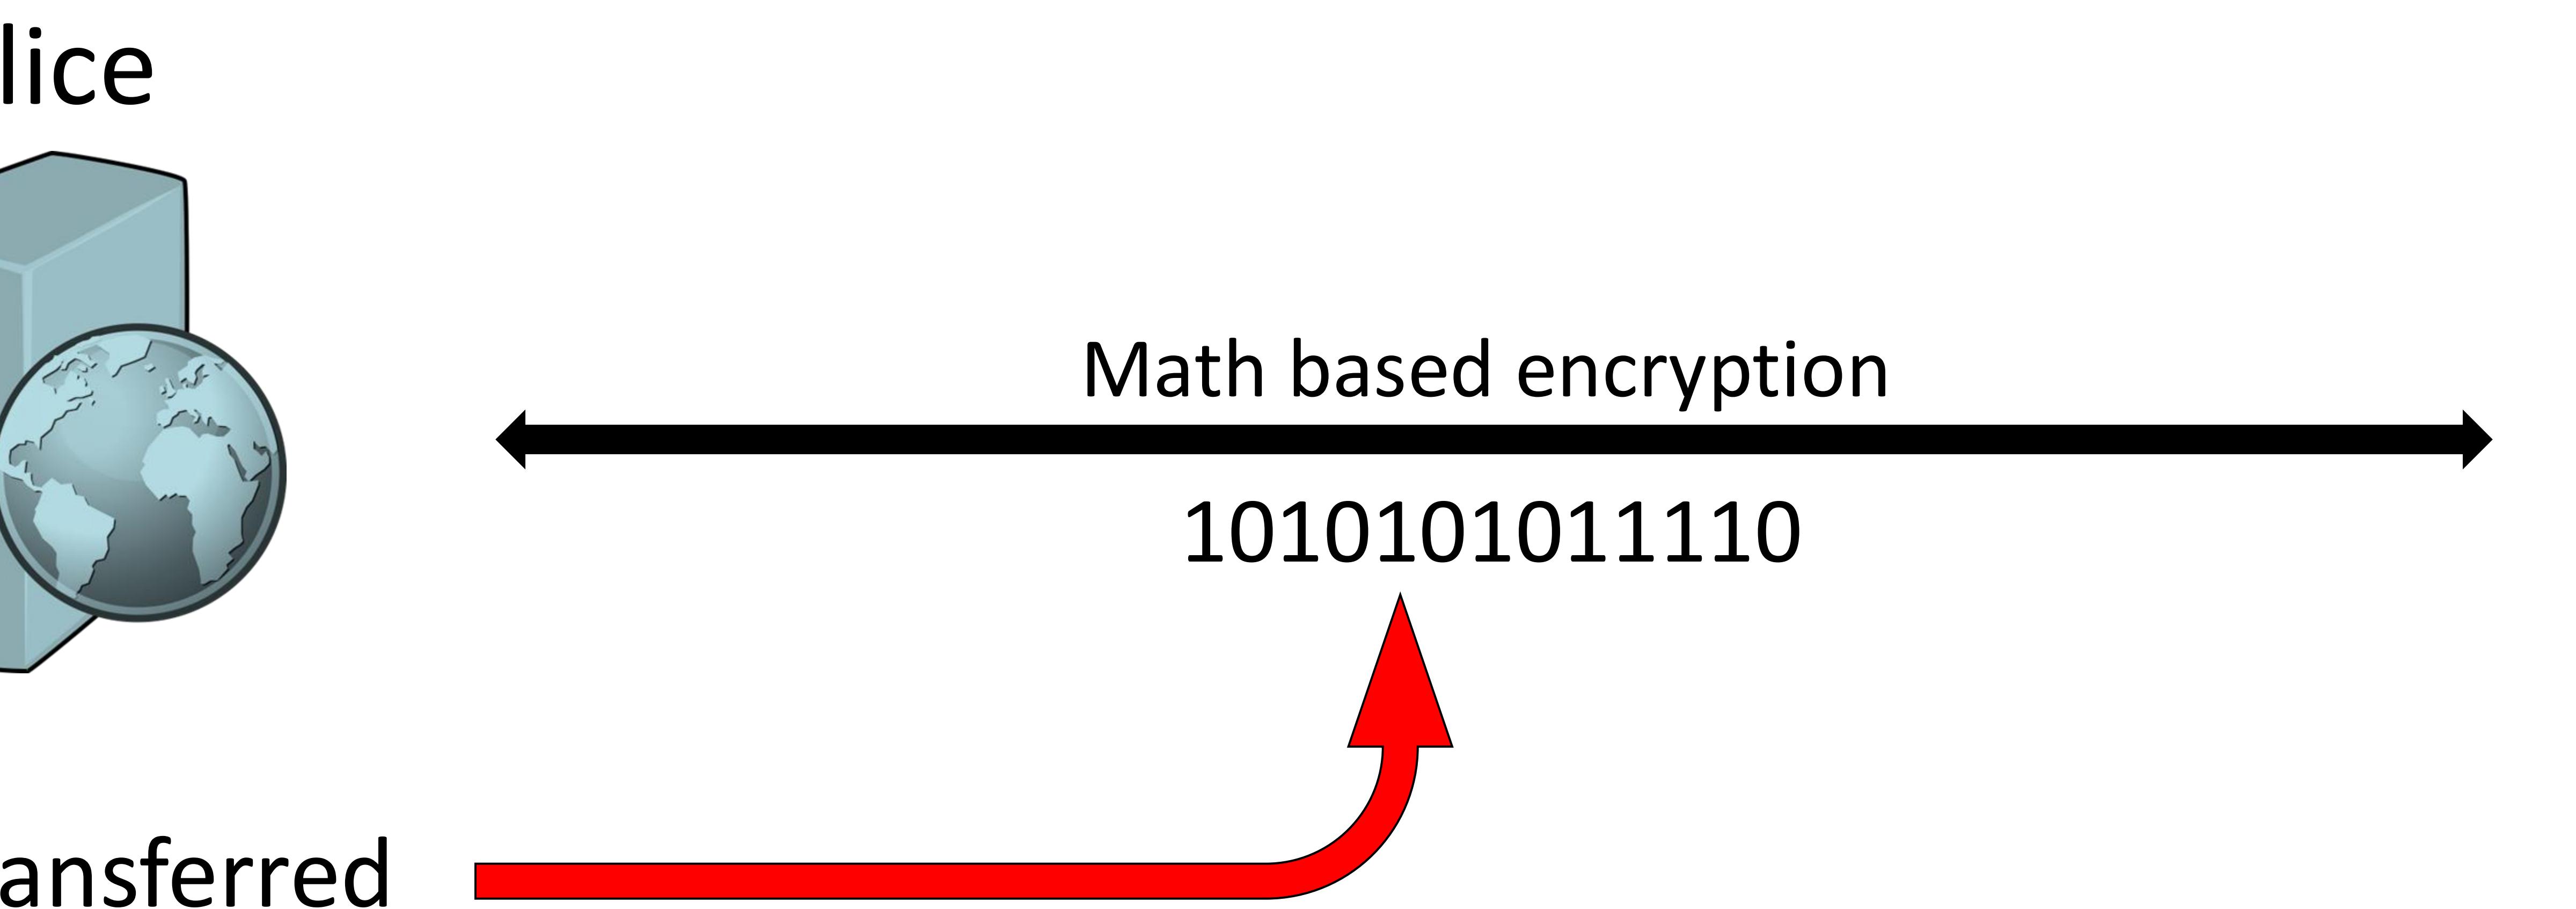

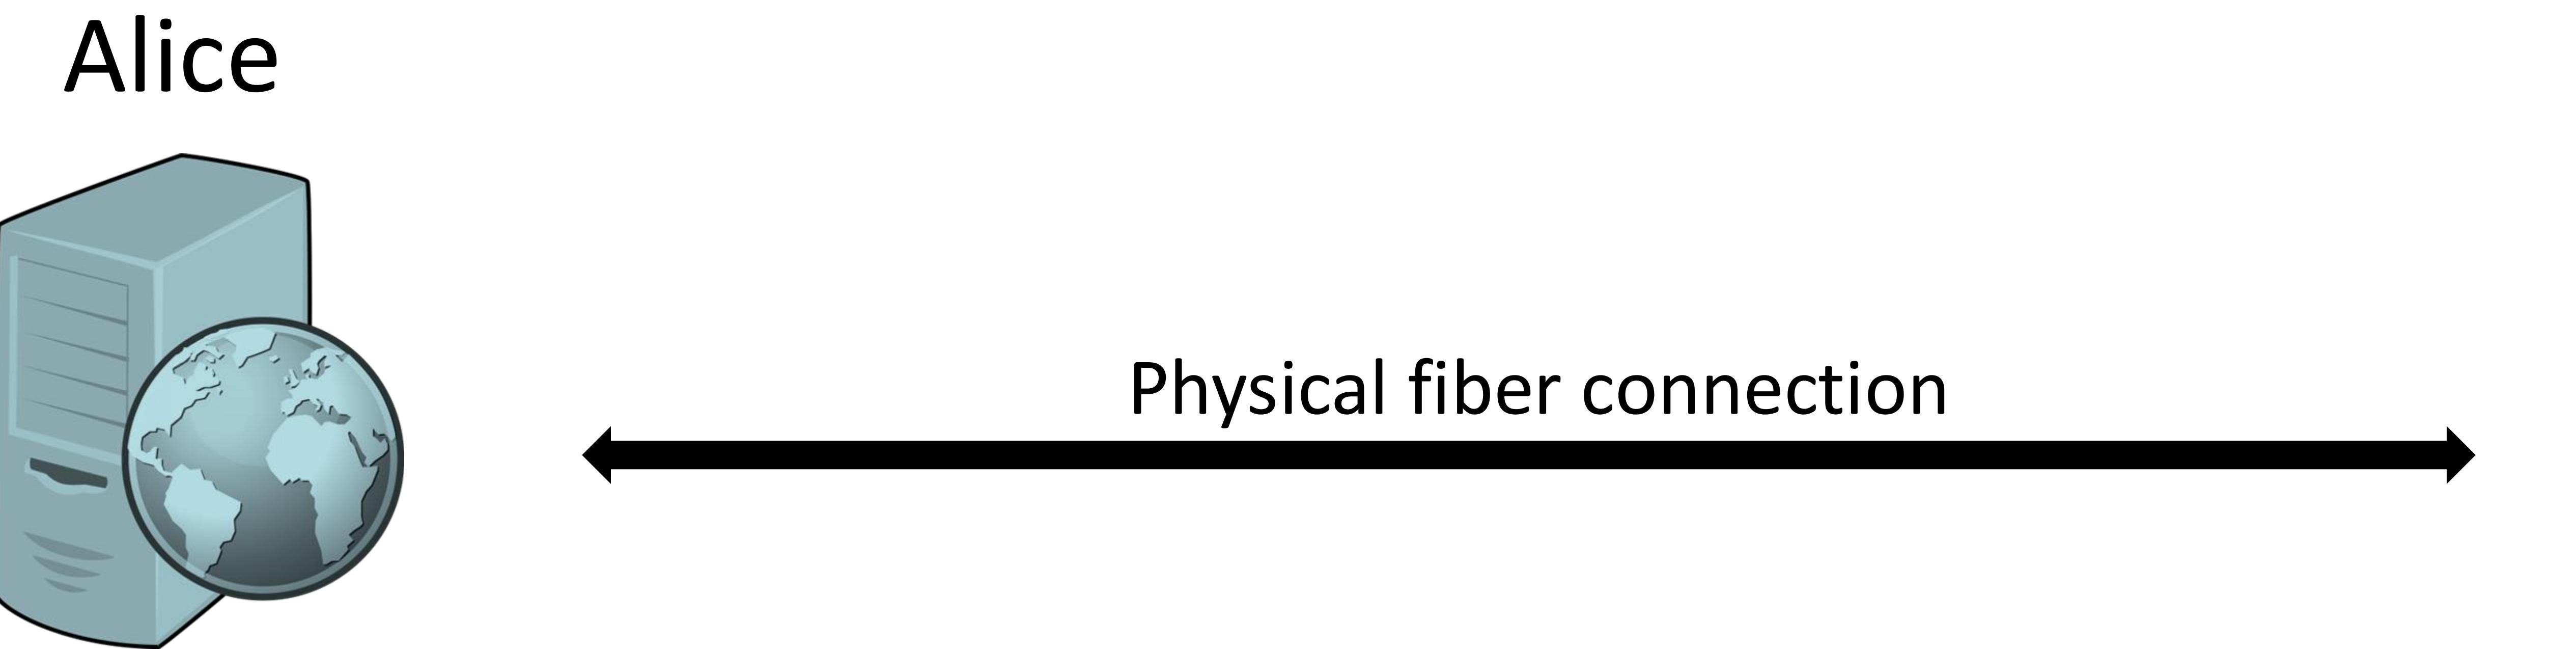

September 2025

# The Problem

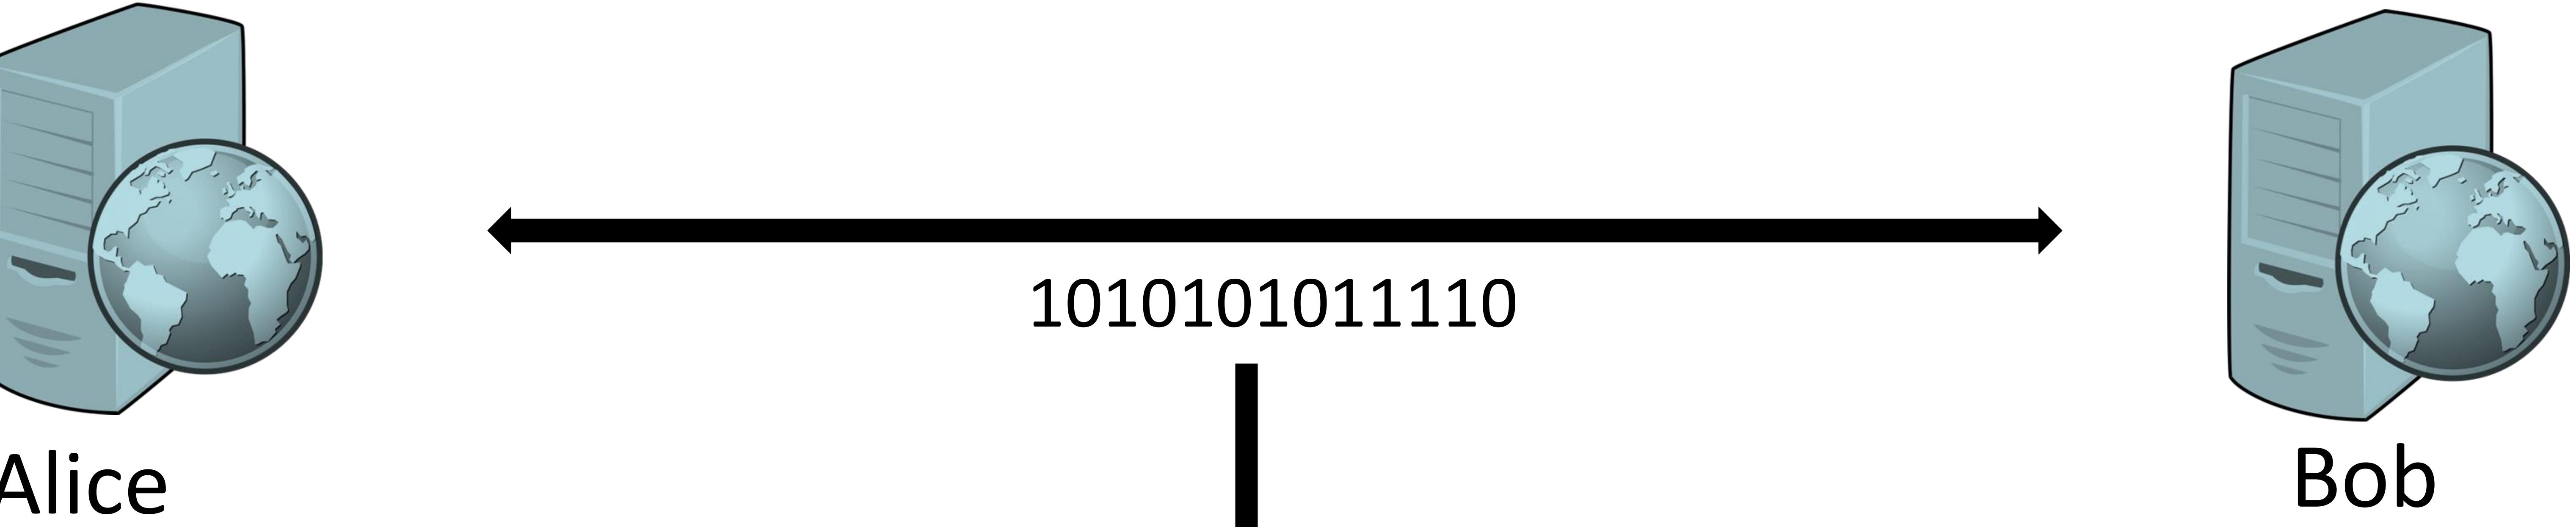

Cyber Attacks cost the global economy **USD 10.5 trillion\***

All our data now and in the future is at risk

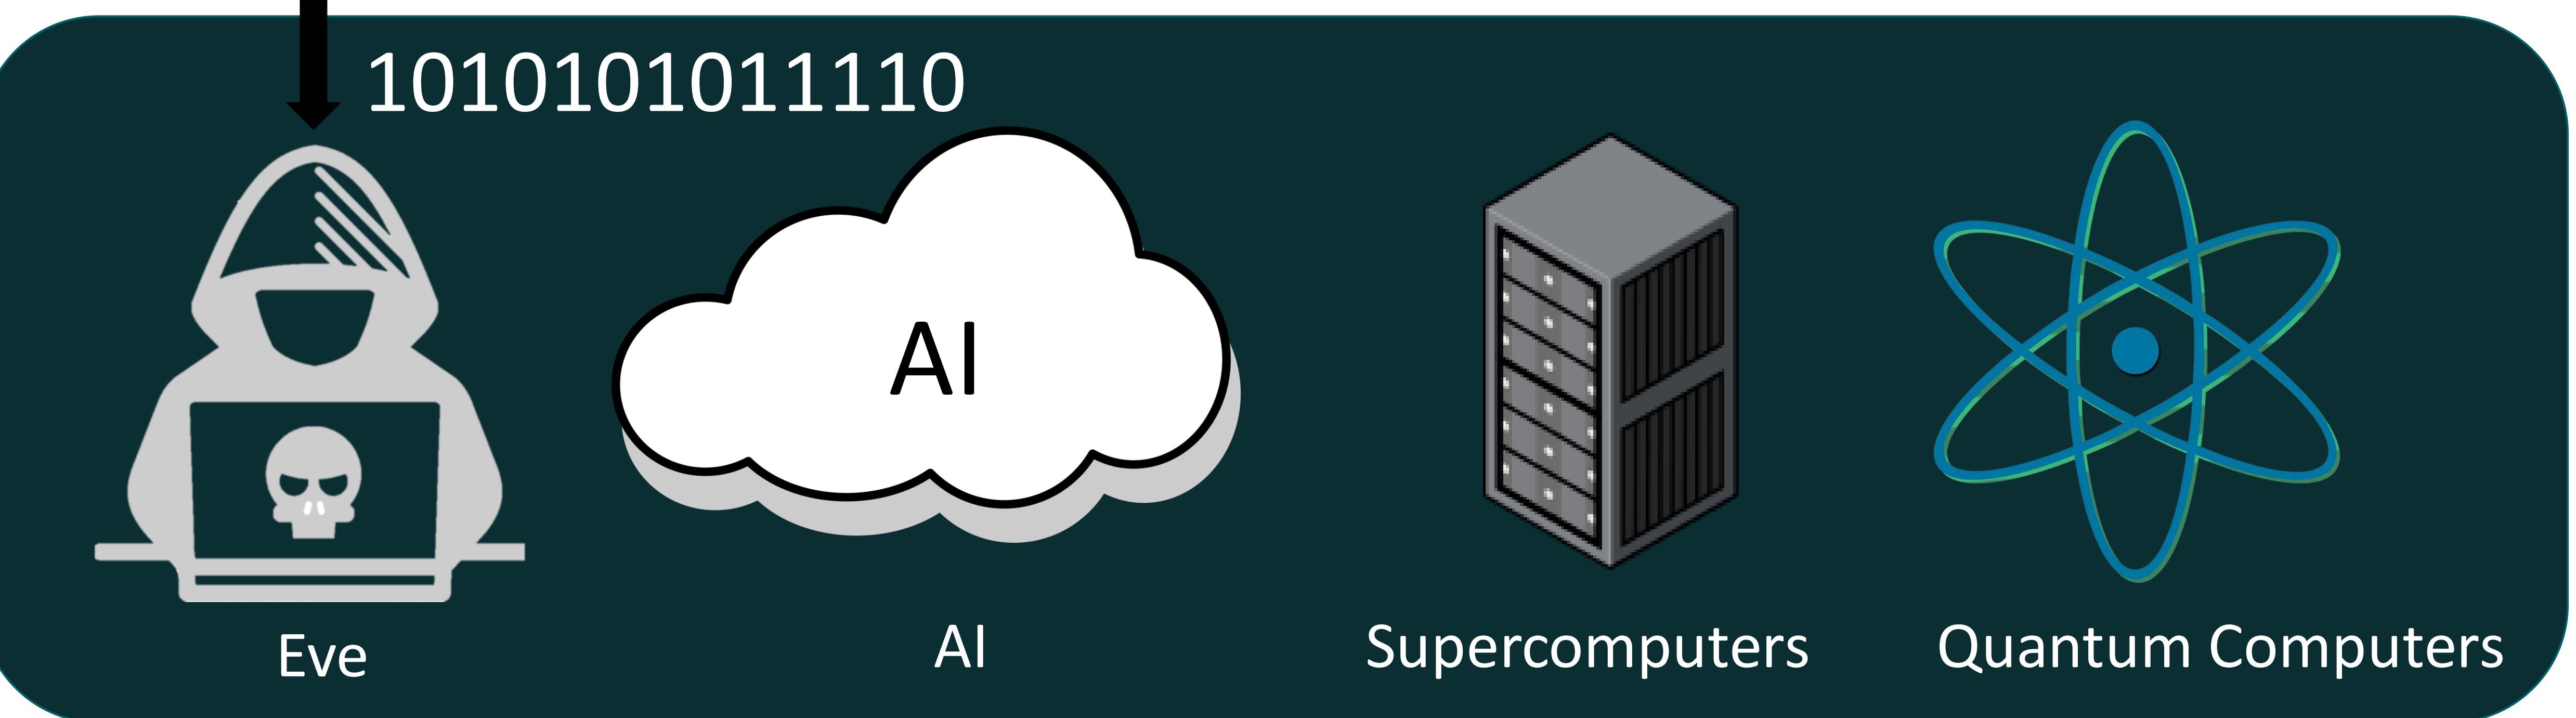

# Why do we have this problem?

# The Fundamental Flaw

Eve can copy bits, then  
Use powerful computer to crack  
encryption  
(Today, or in future)

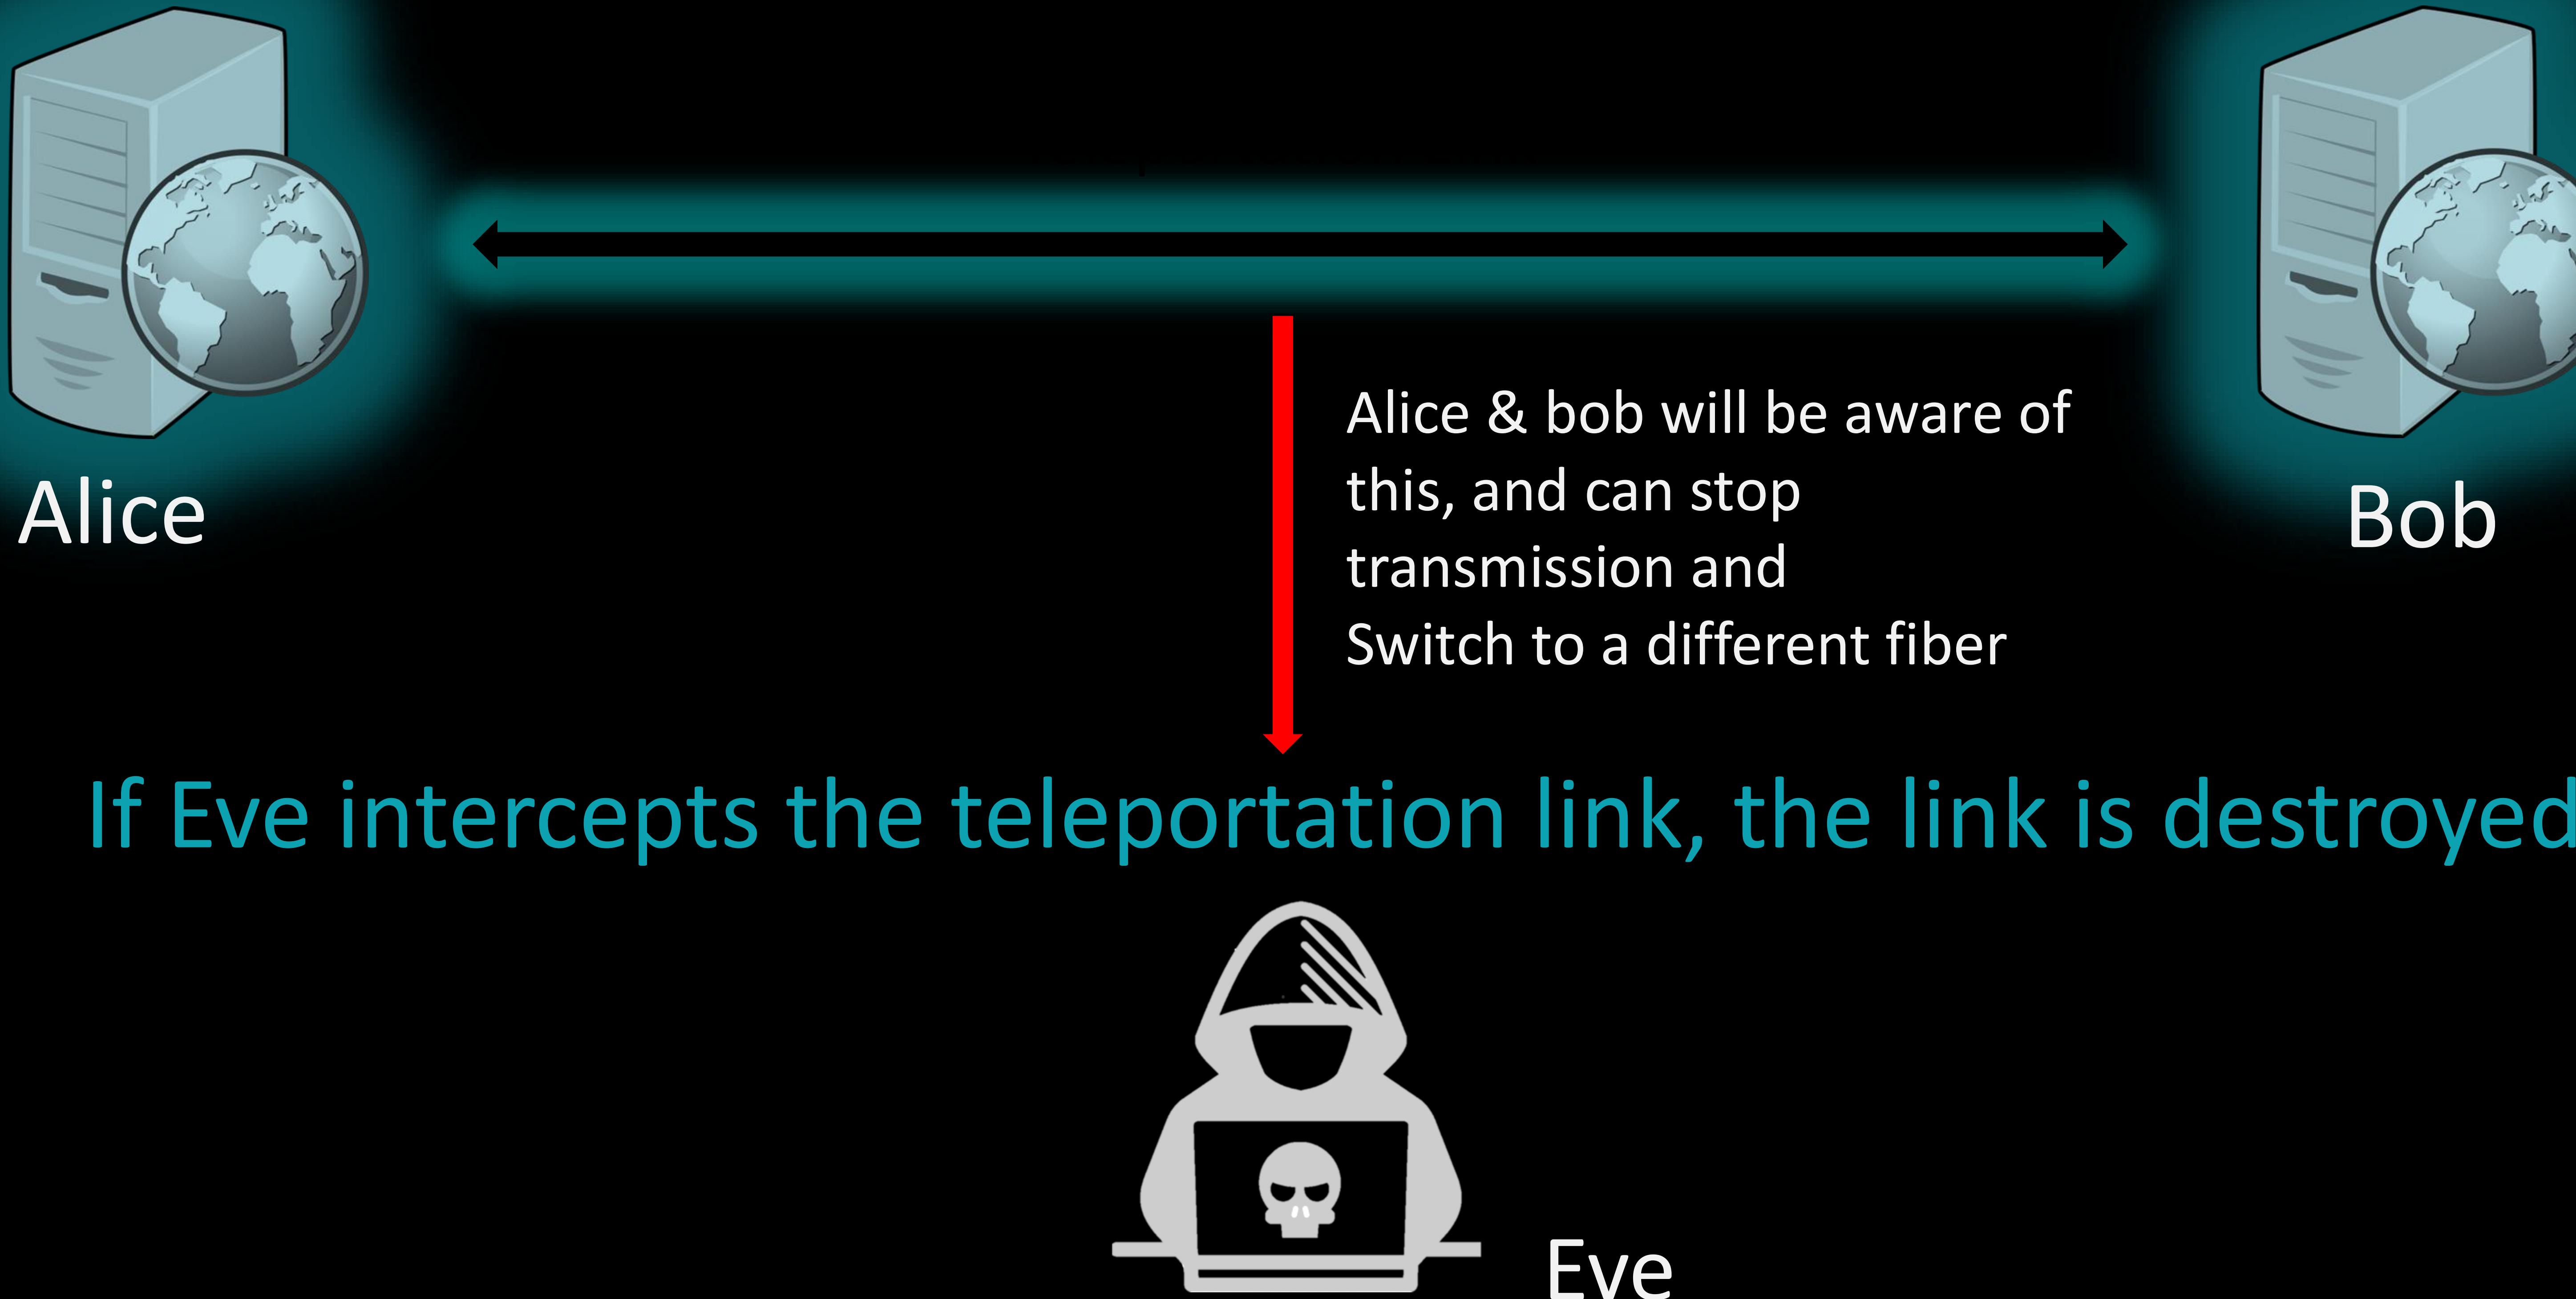

# Inspiration

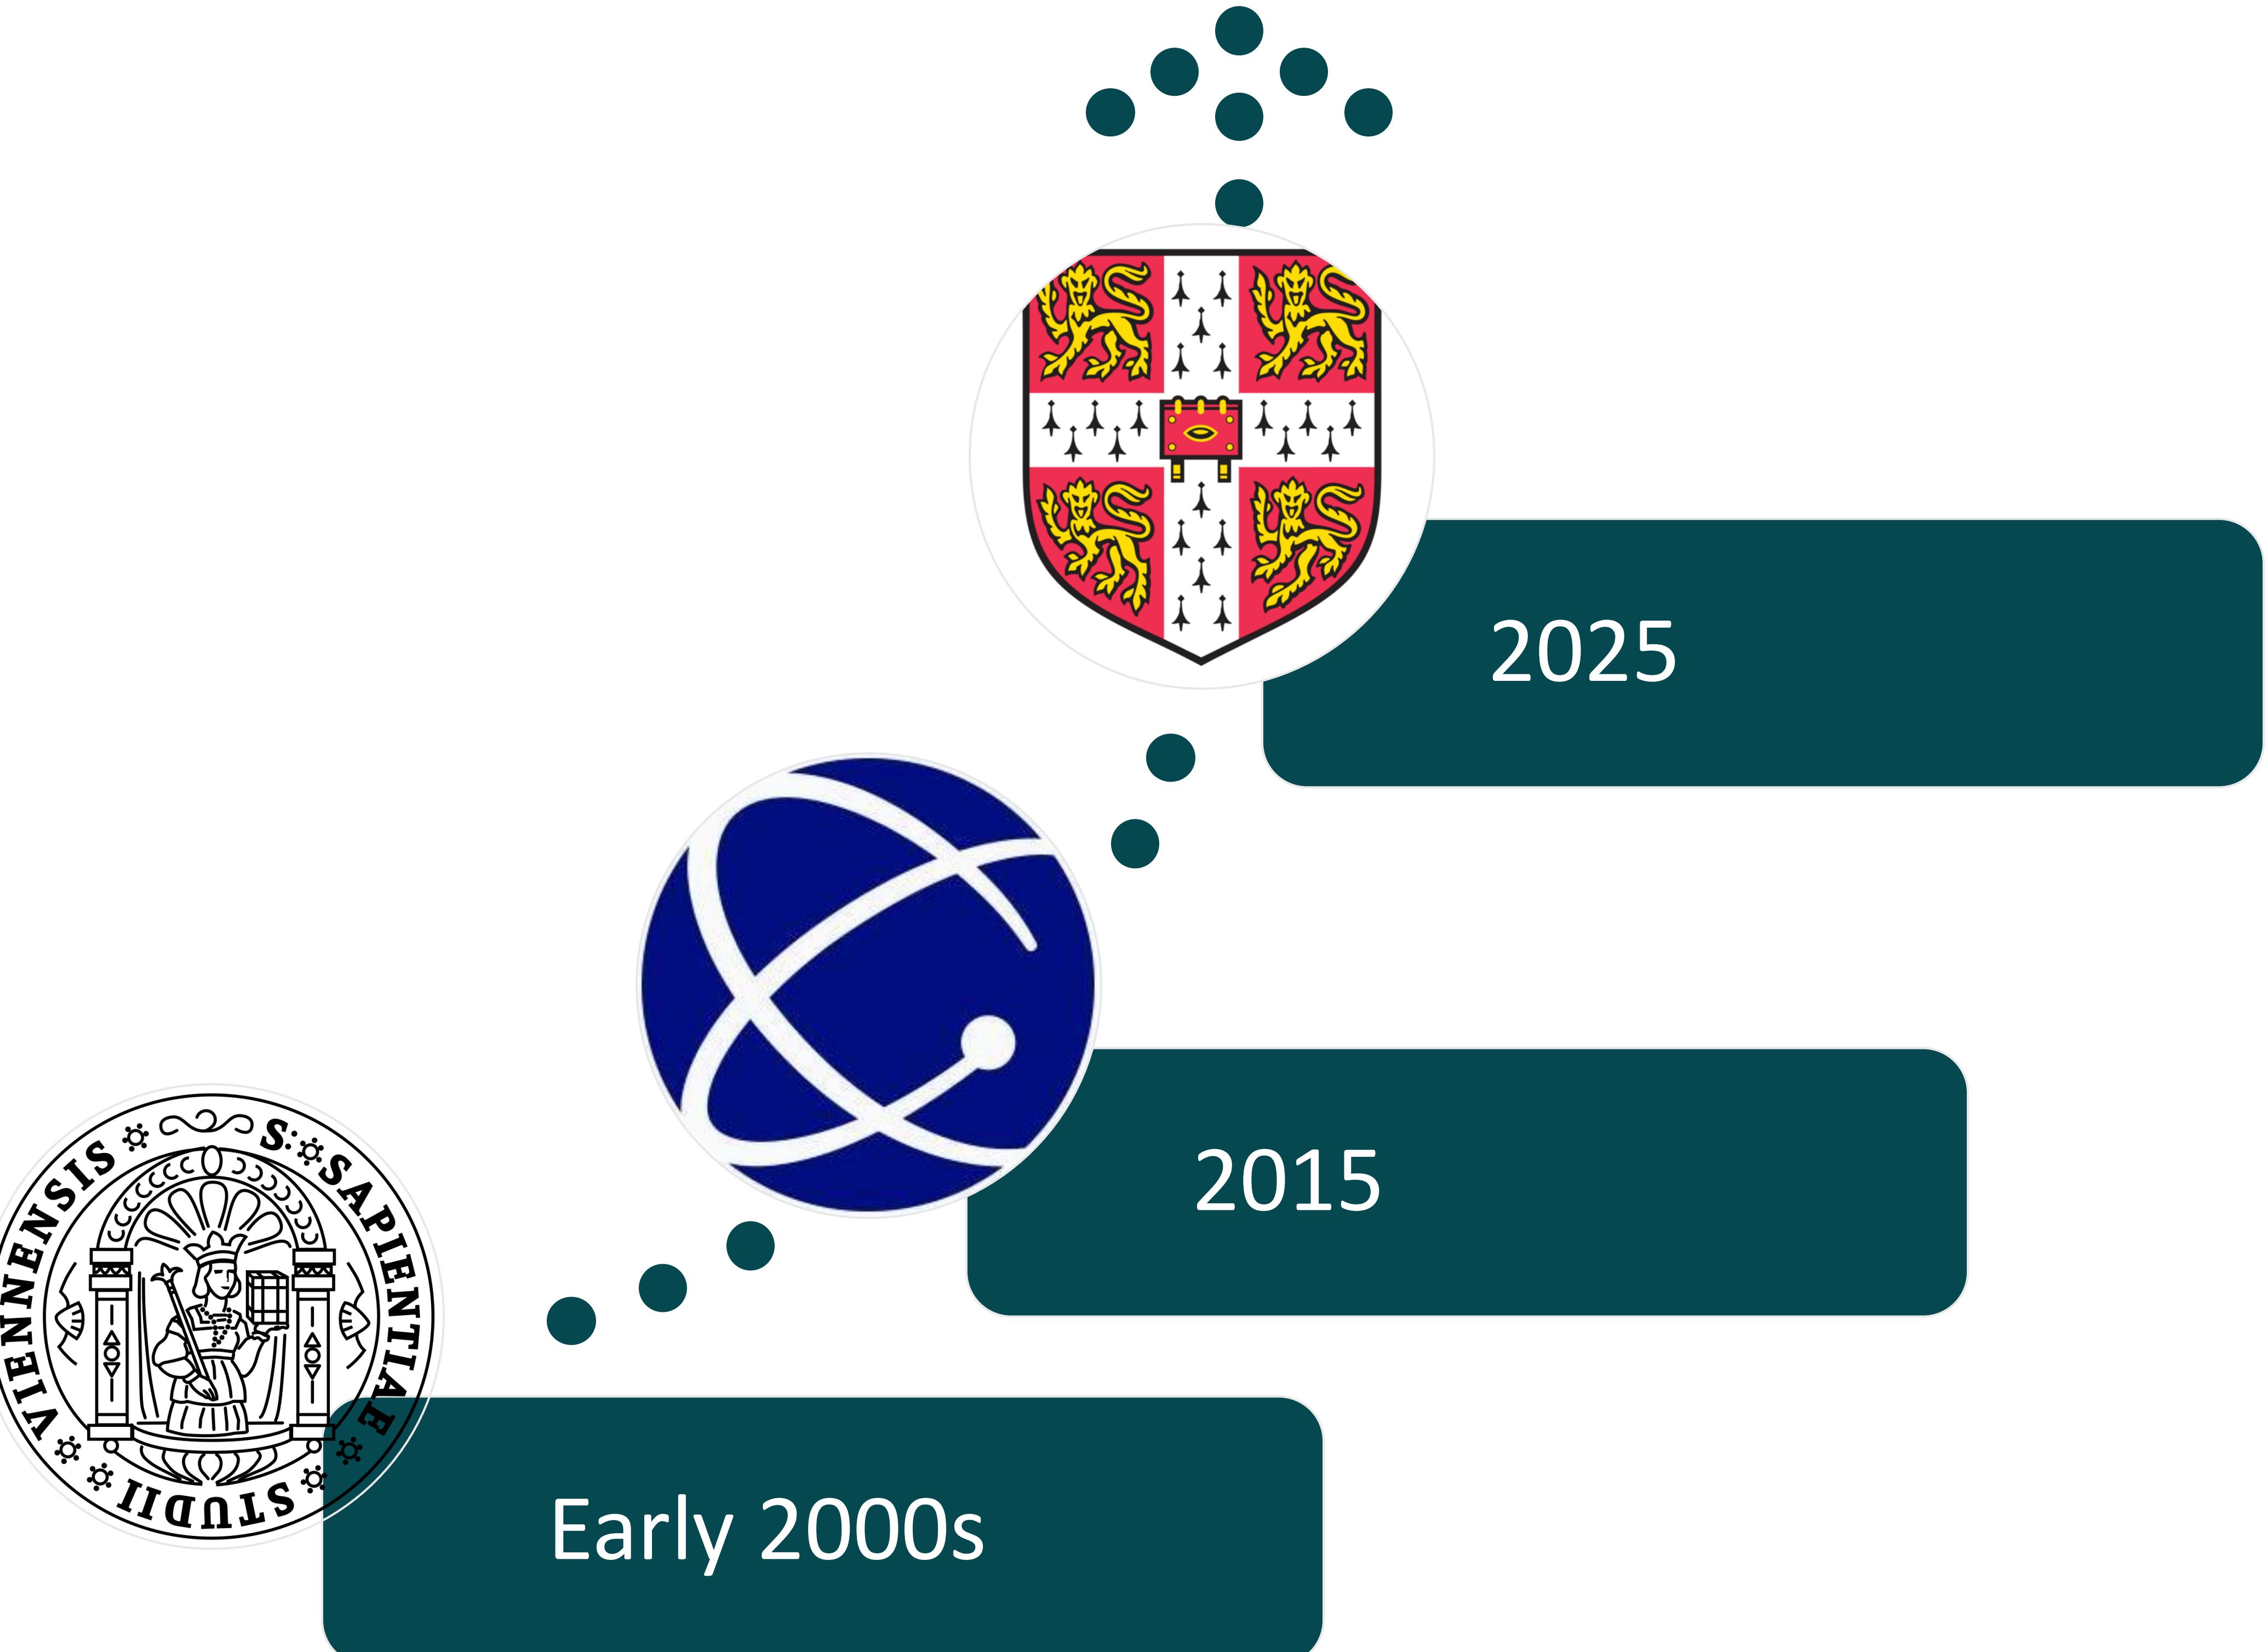

**STAR  
WARS**

# Our Solution

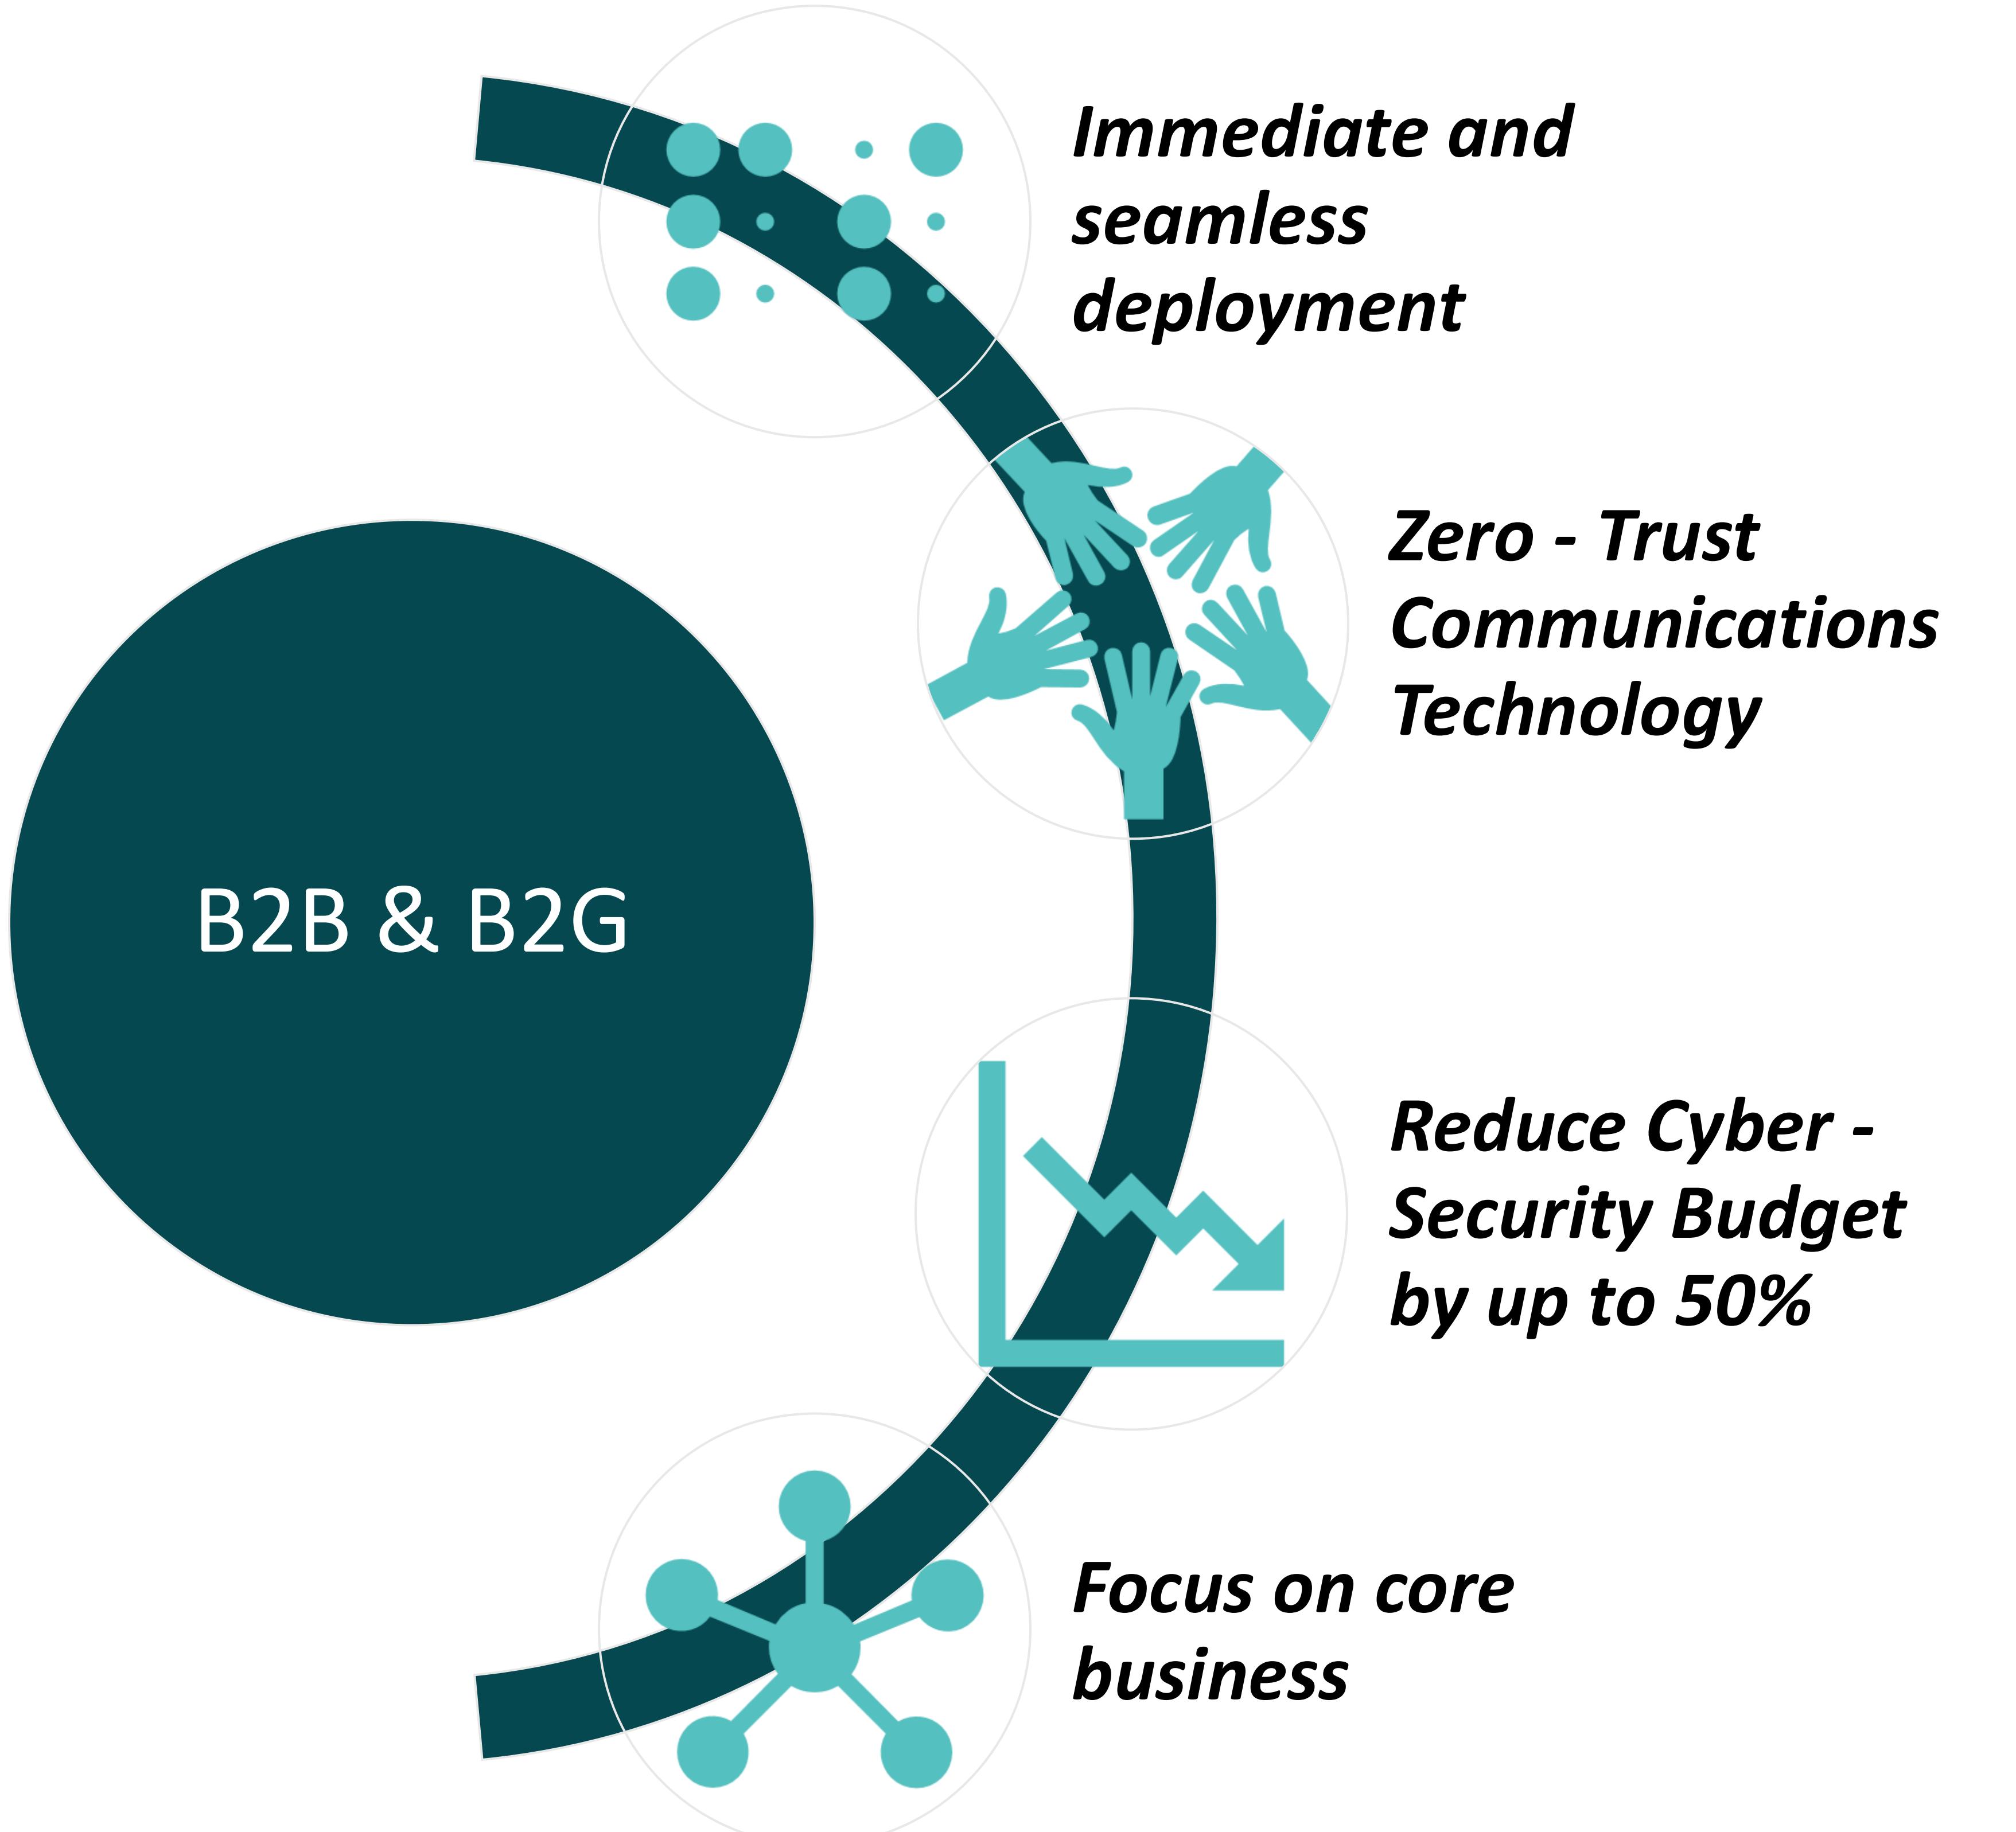

Unhackable Security! No Amount of Computing Power (Today or Future) Can Break!

# It's Been Done !!??

# Our Value Proposition

# Traction

GTM Partnership with global IT professional services company

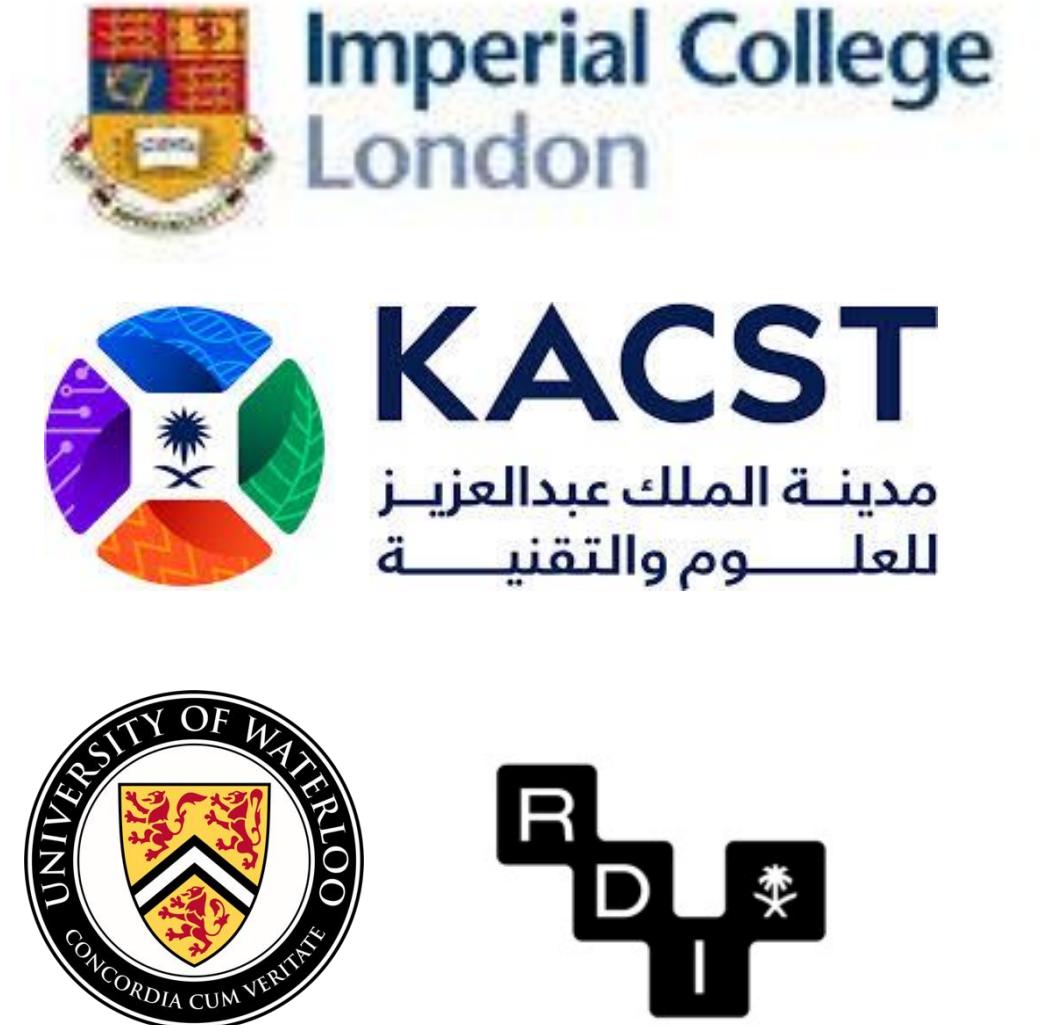

# Leadership Team

**UZMA SIDDIQUI**  
Co-Founder & CEO

**DR. MOHAMMED ALSHAREEF**  
Co-Founder & CBDO

**AAKIF REHMAN**  
Co-Founder & CTO

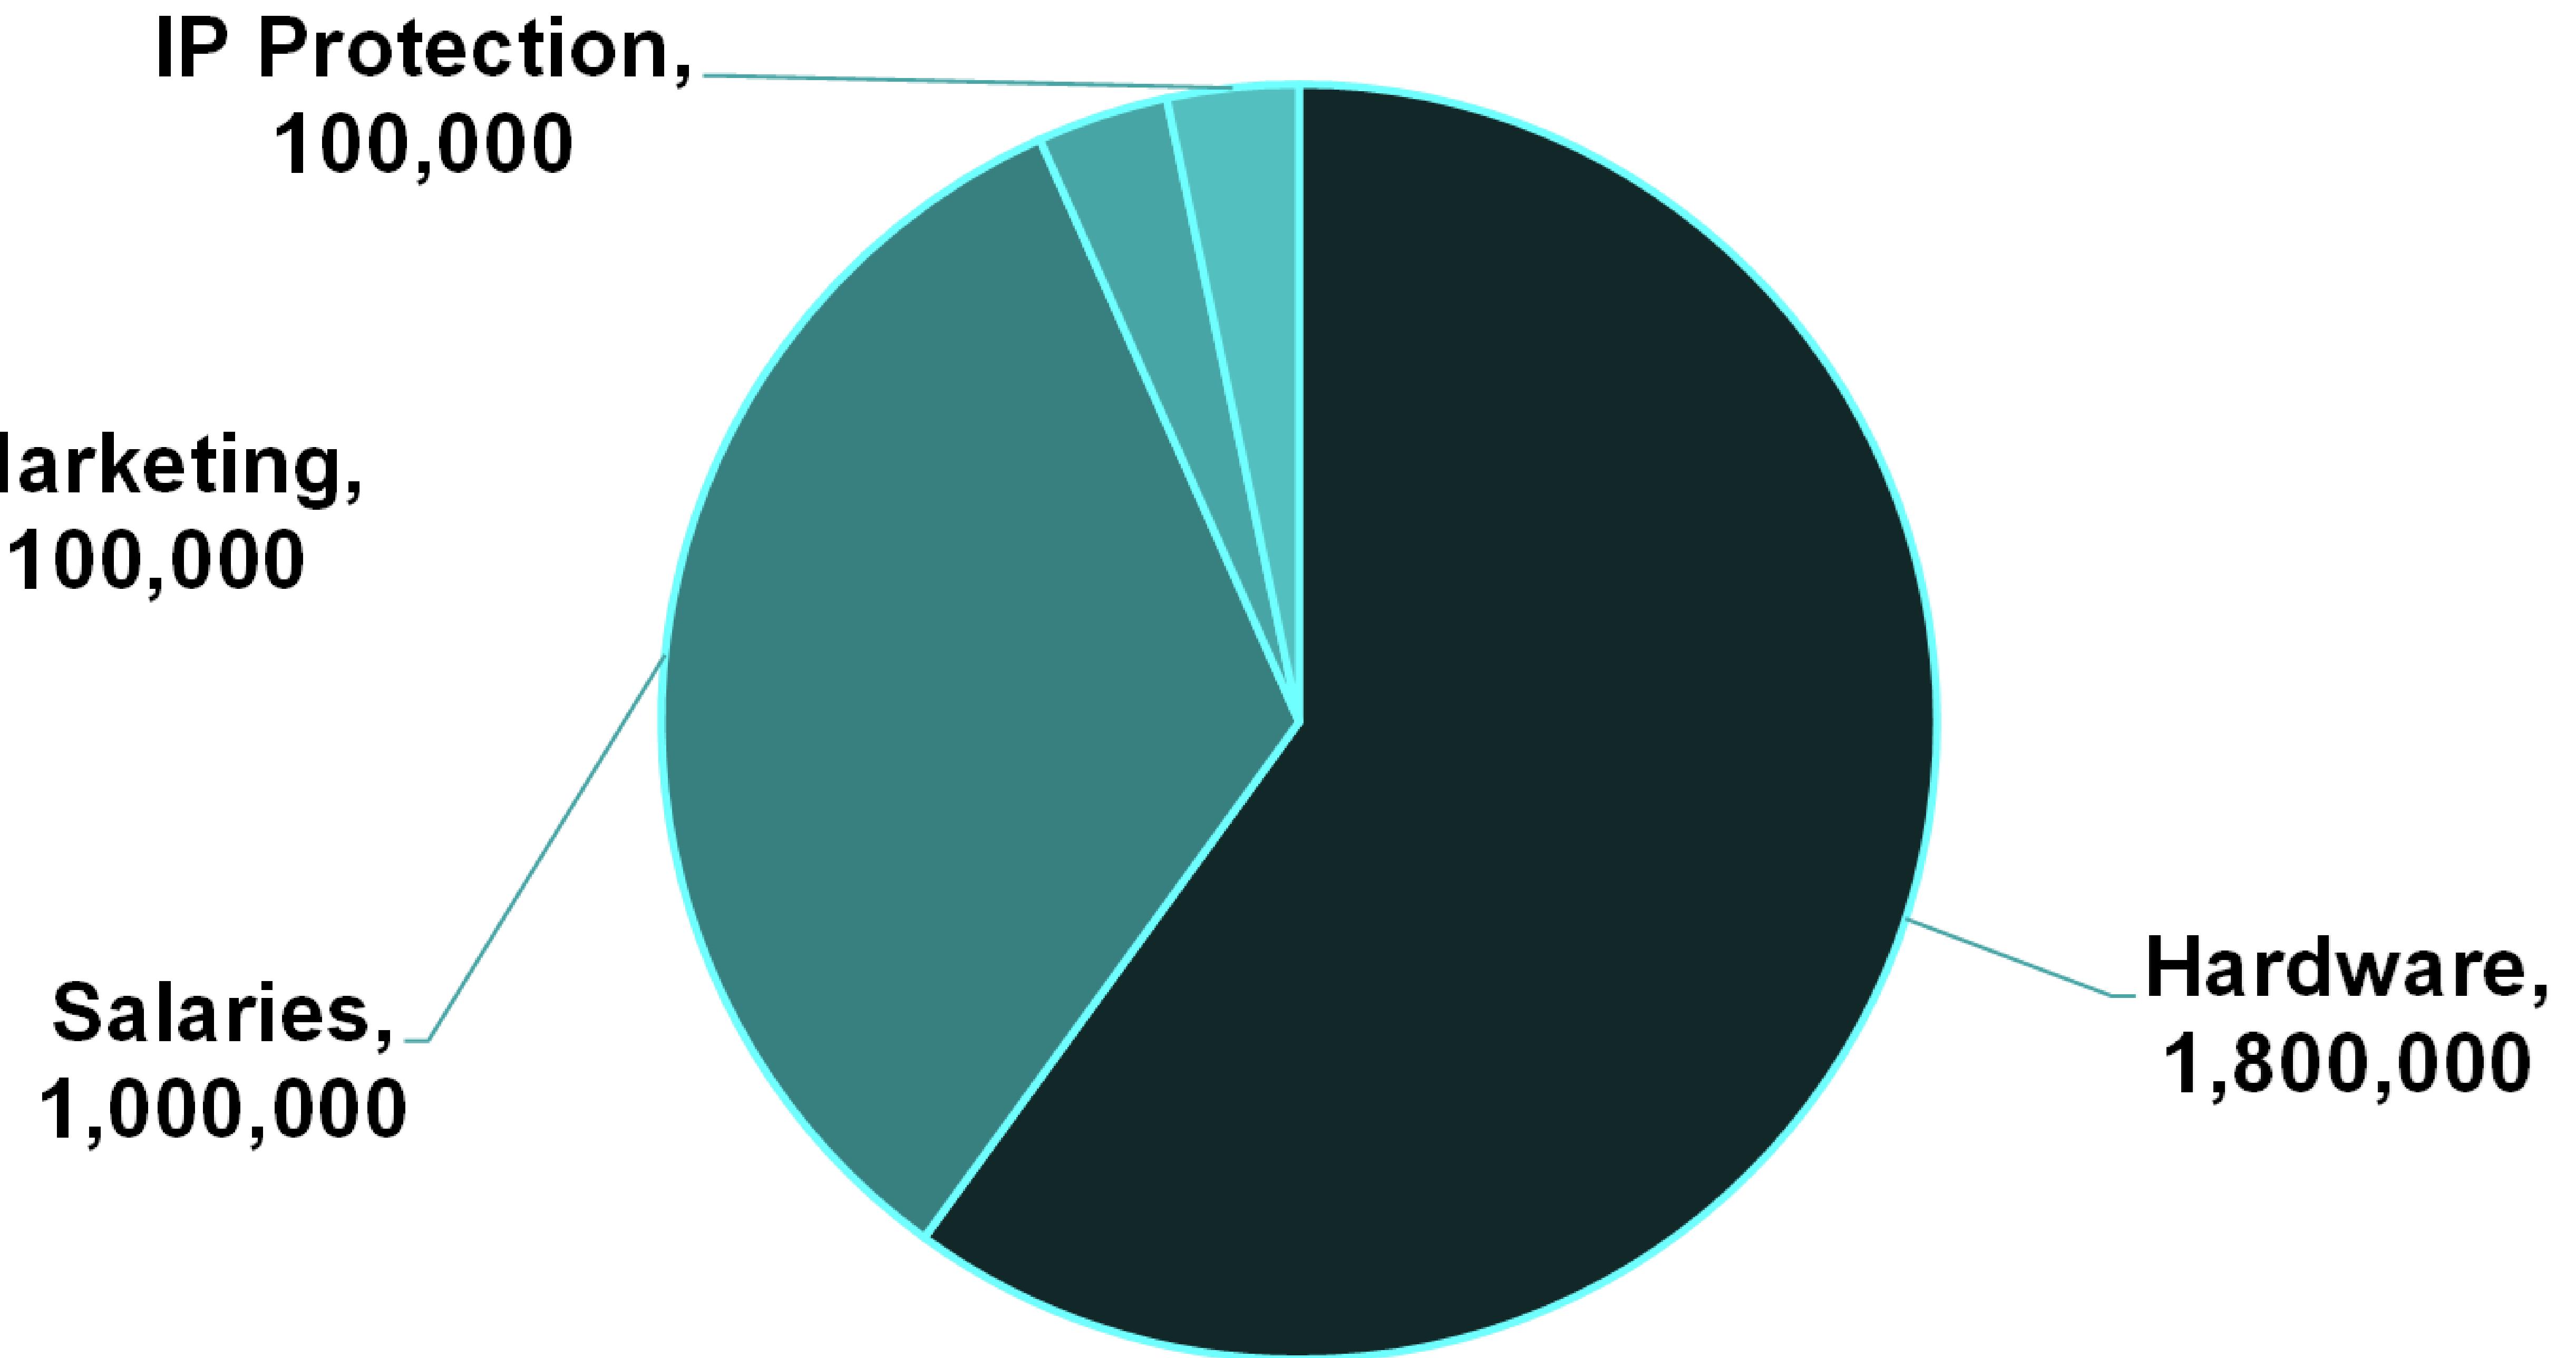

# Competitor Analysis

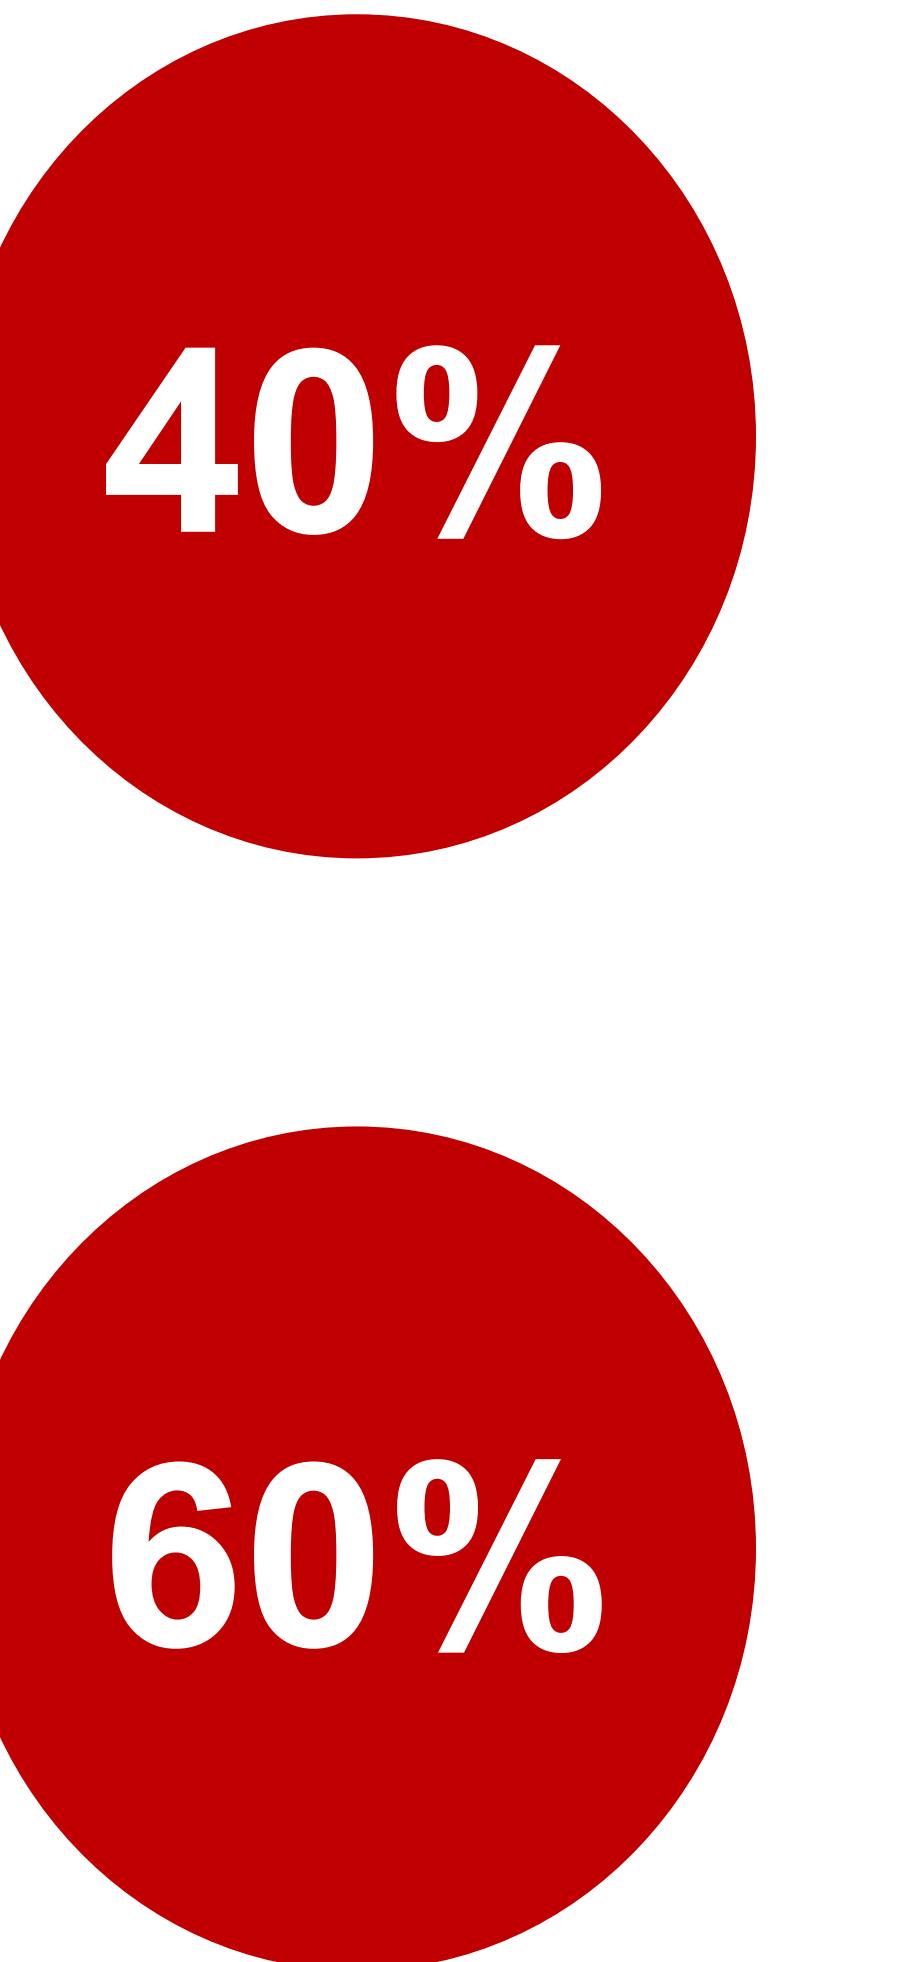

# The Ask

**USD 3M to build  
QUANTUM REPEATERS –  
the next 'GAME CHANGER'**

## SOVEREIGN TECHNOLOGY FOR SAUDI ARABIA – HOMEGROWN GLOBAL COMPANY

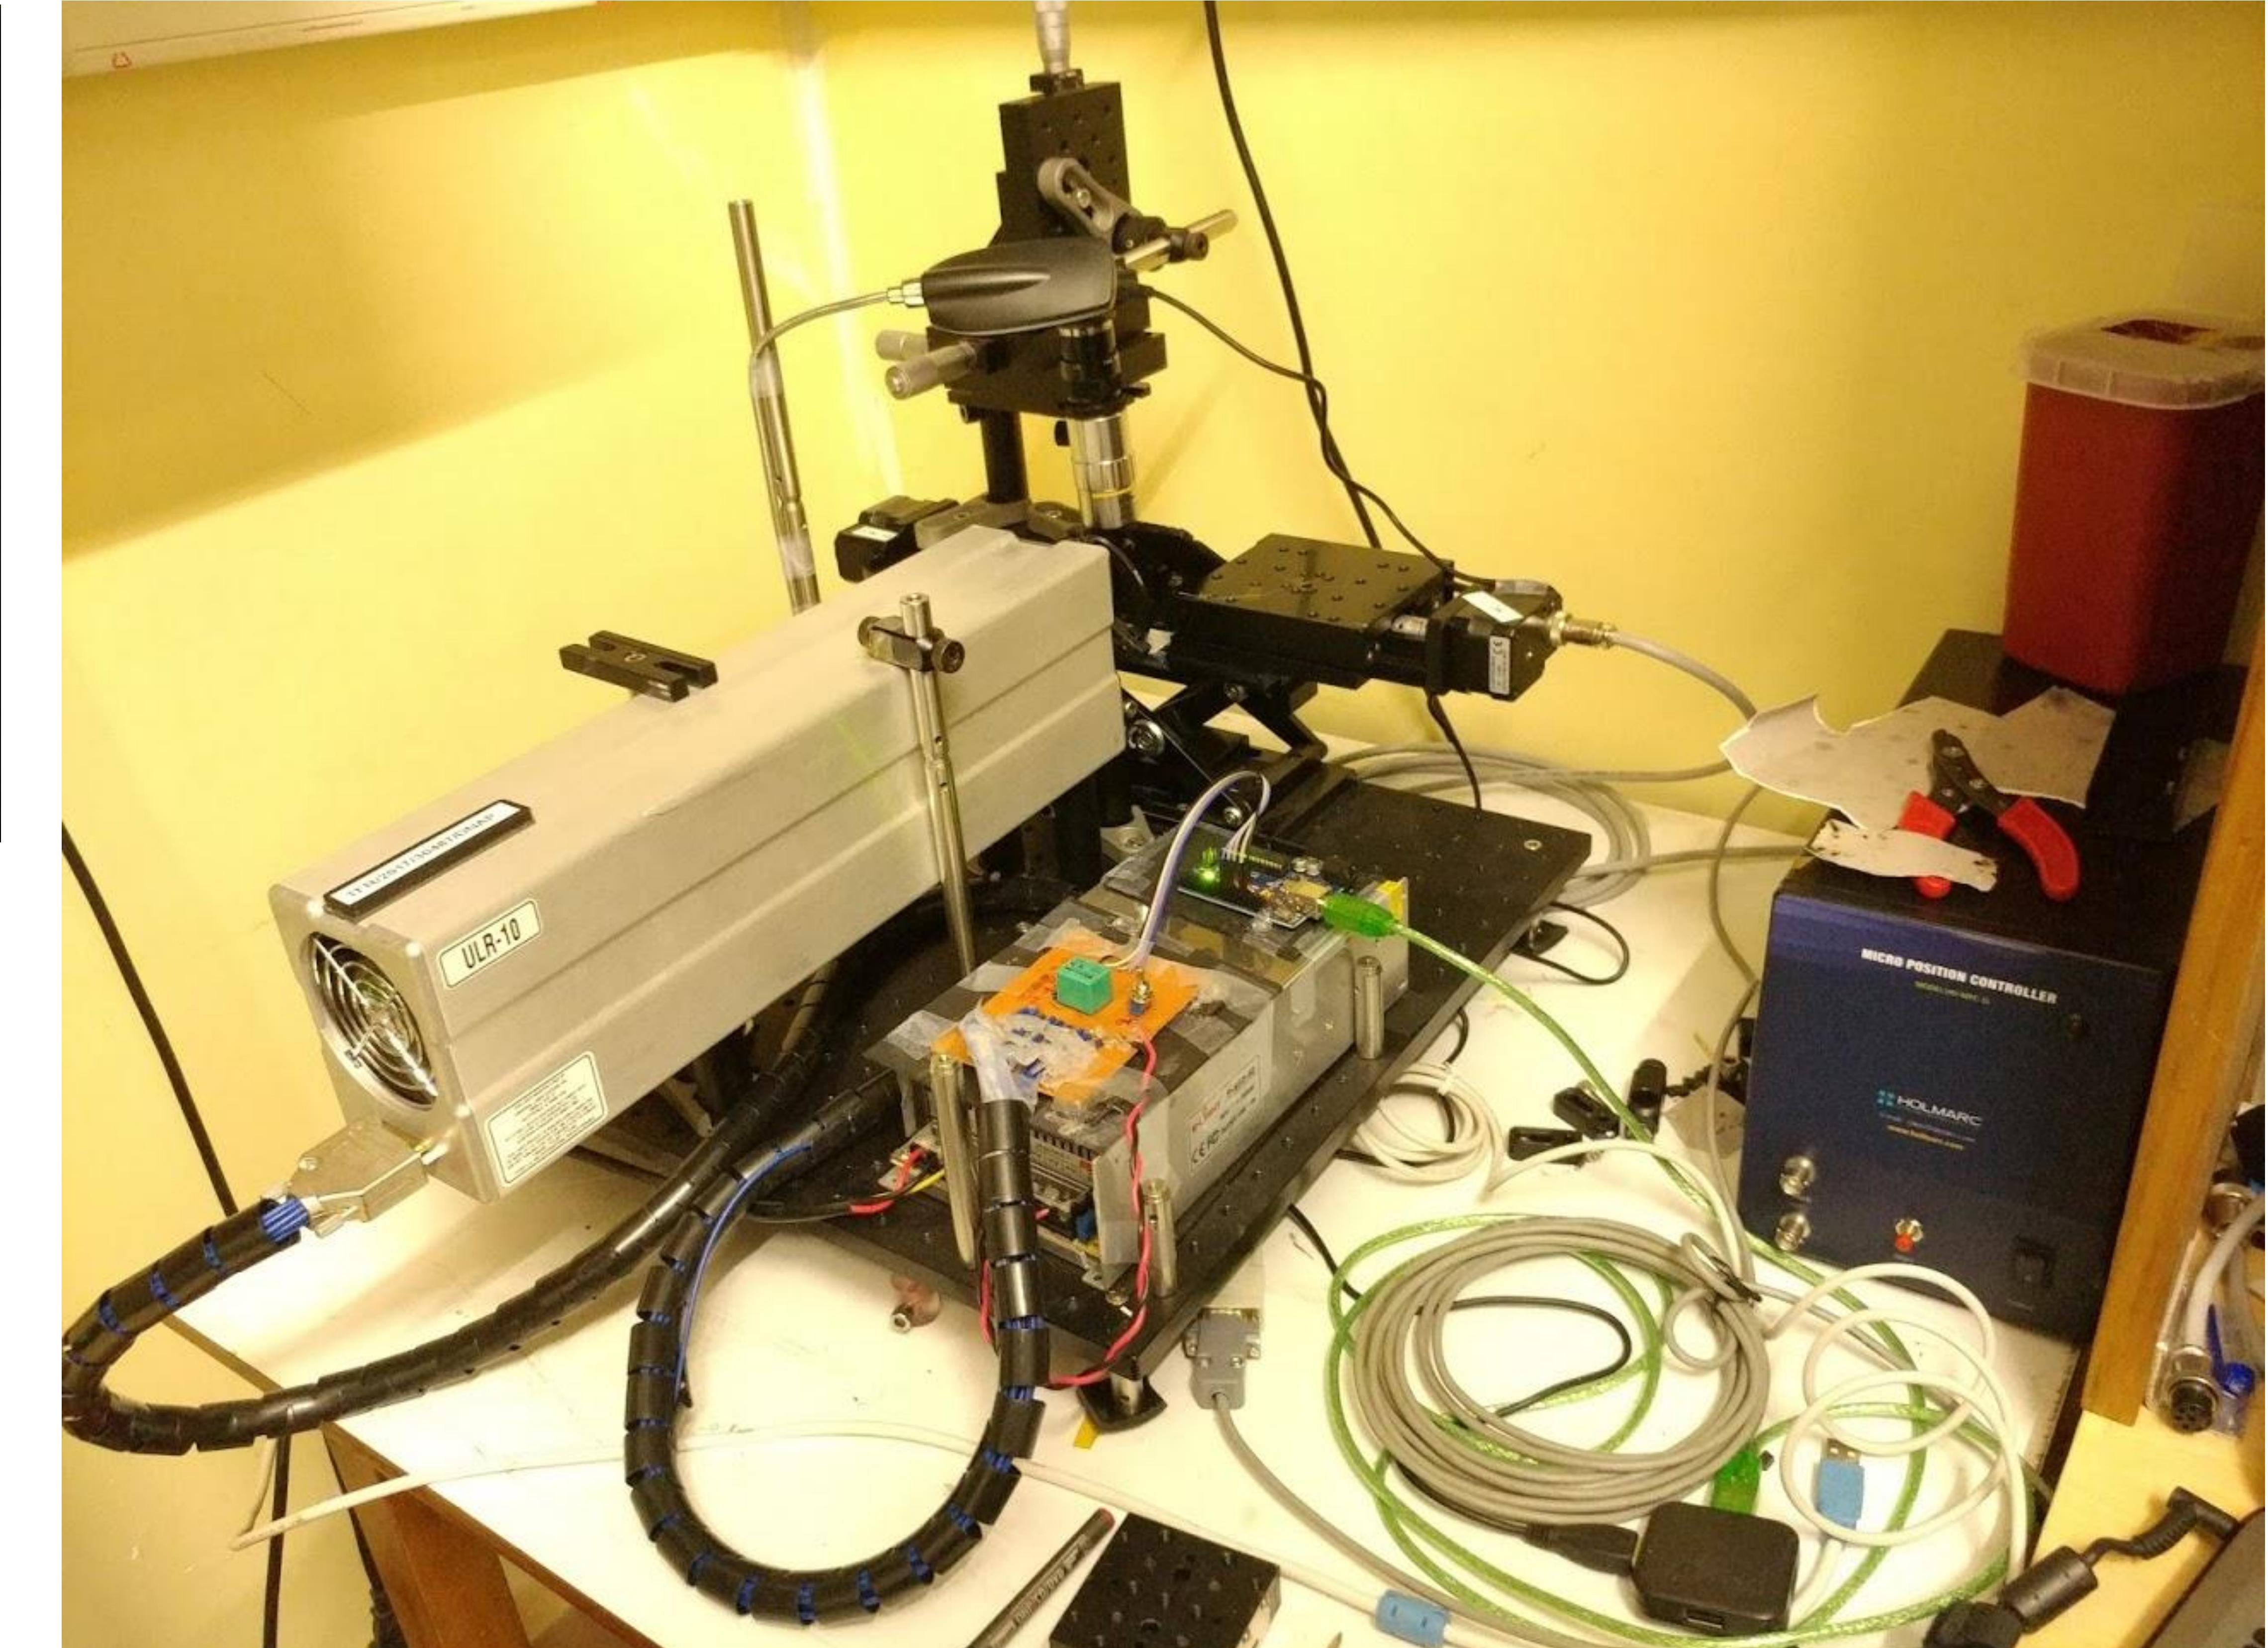

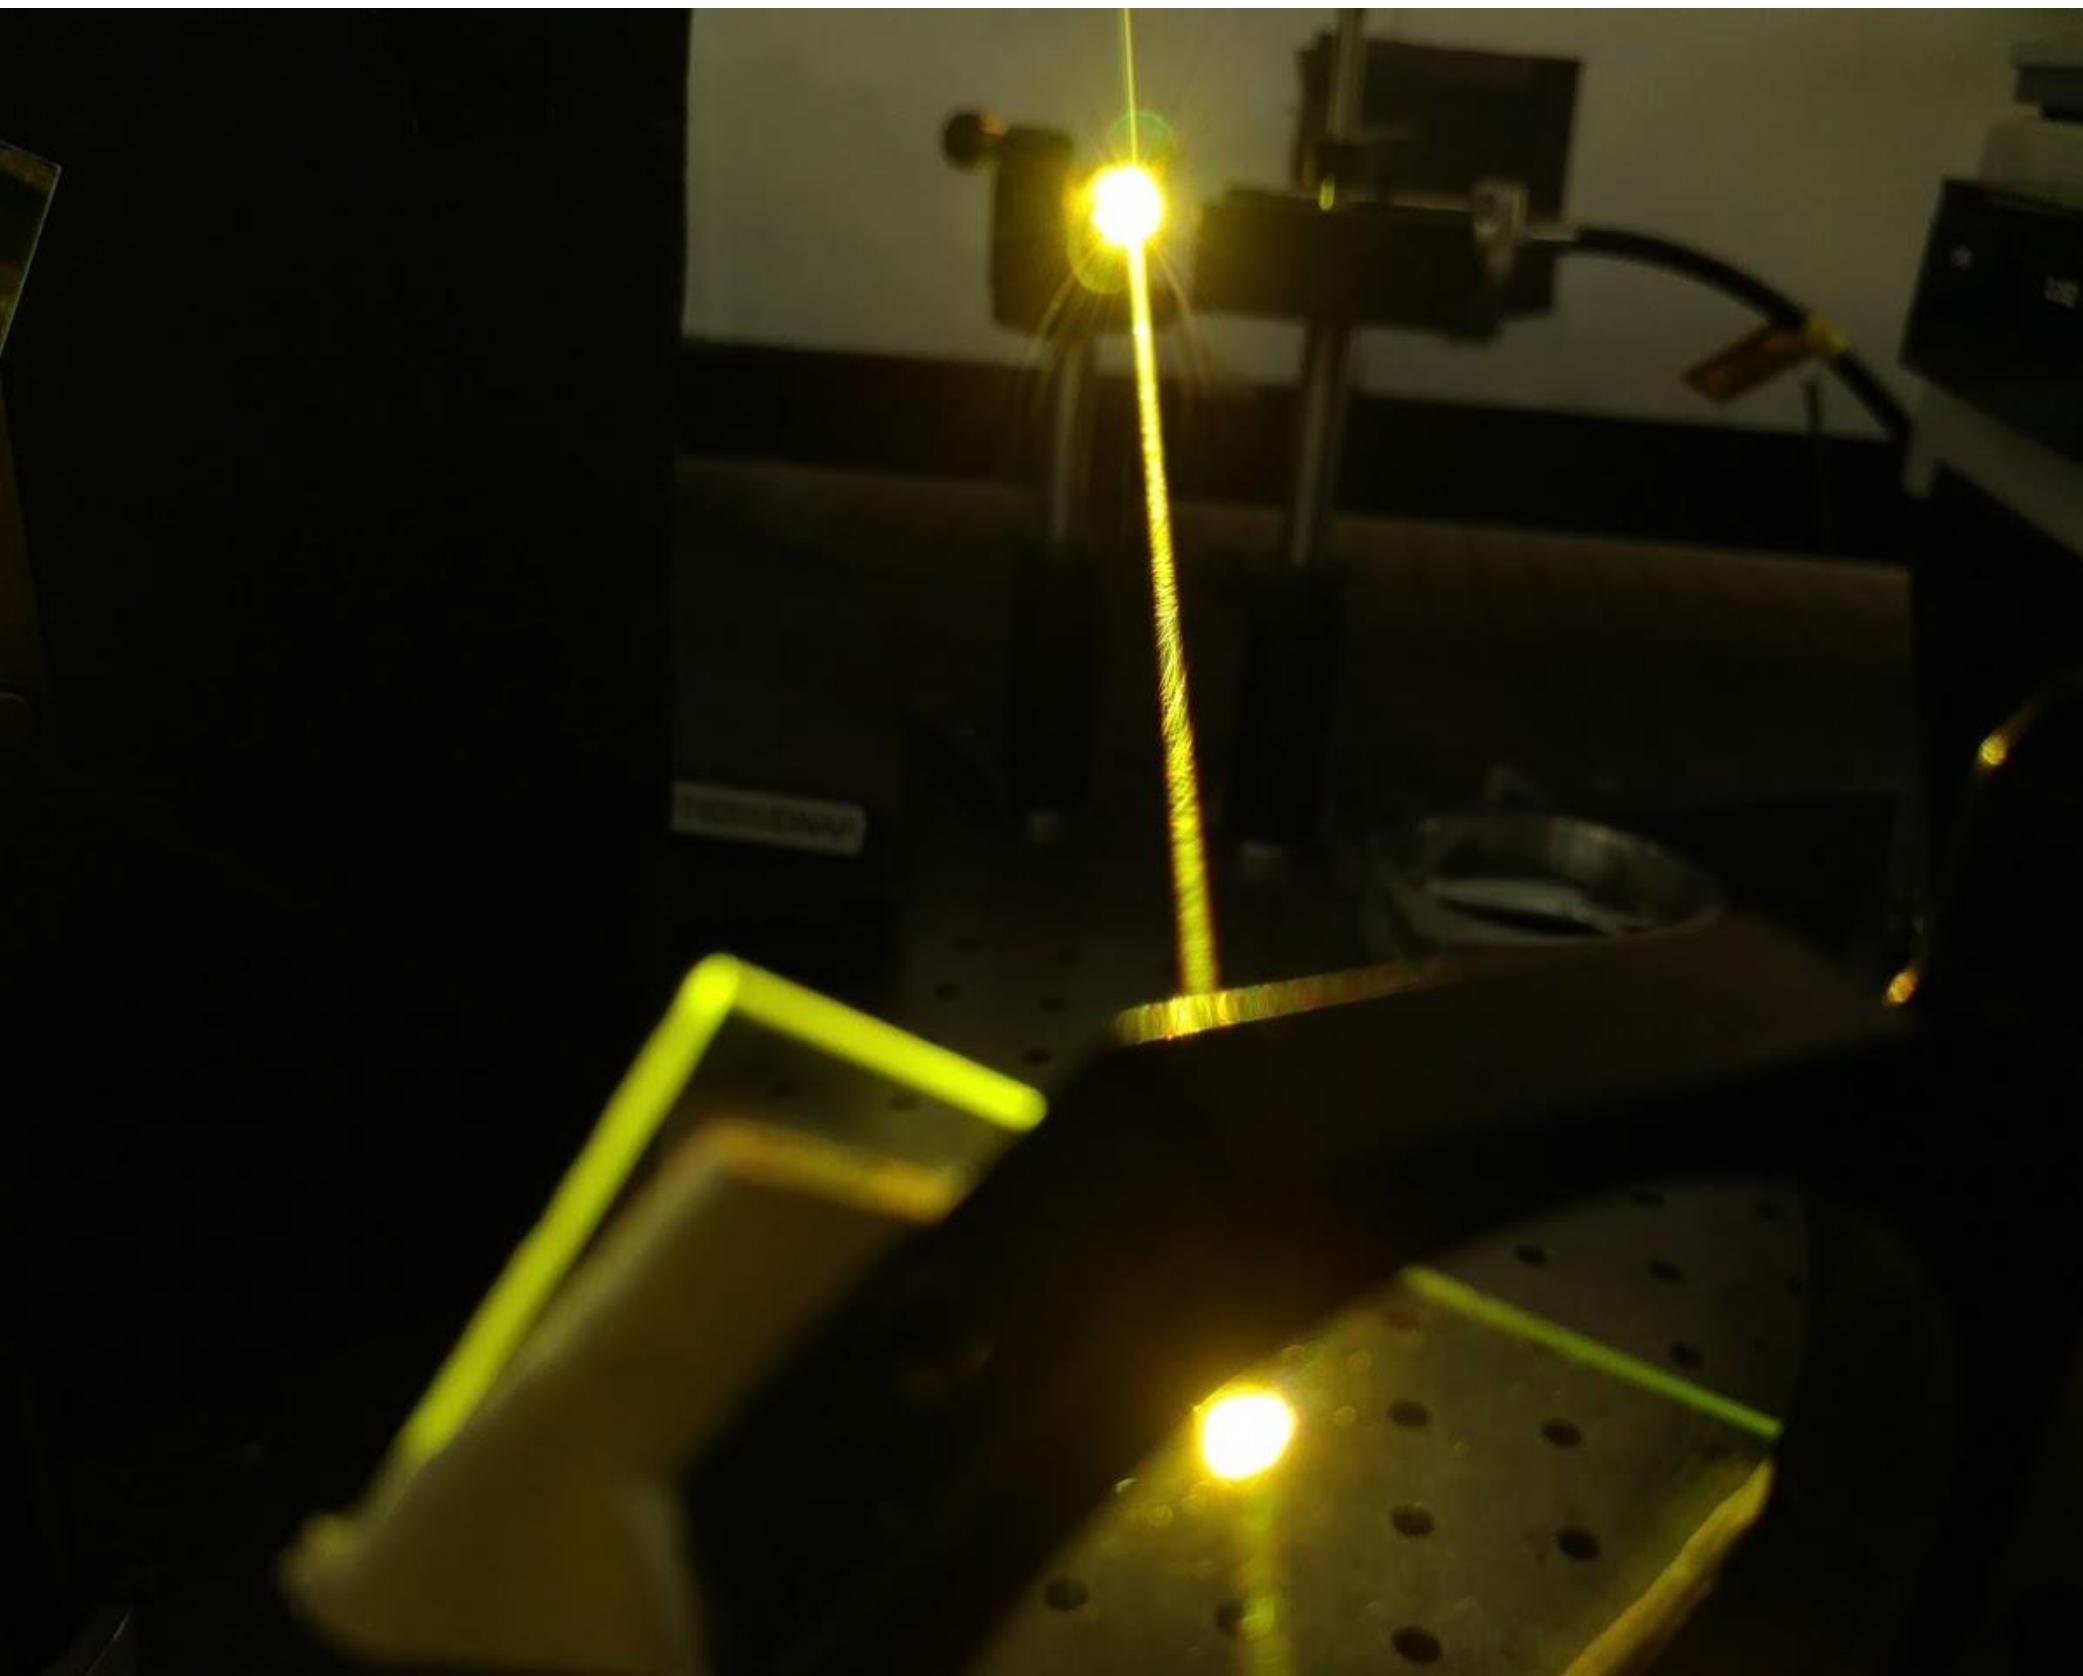

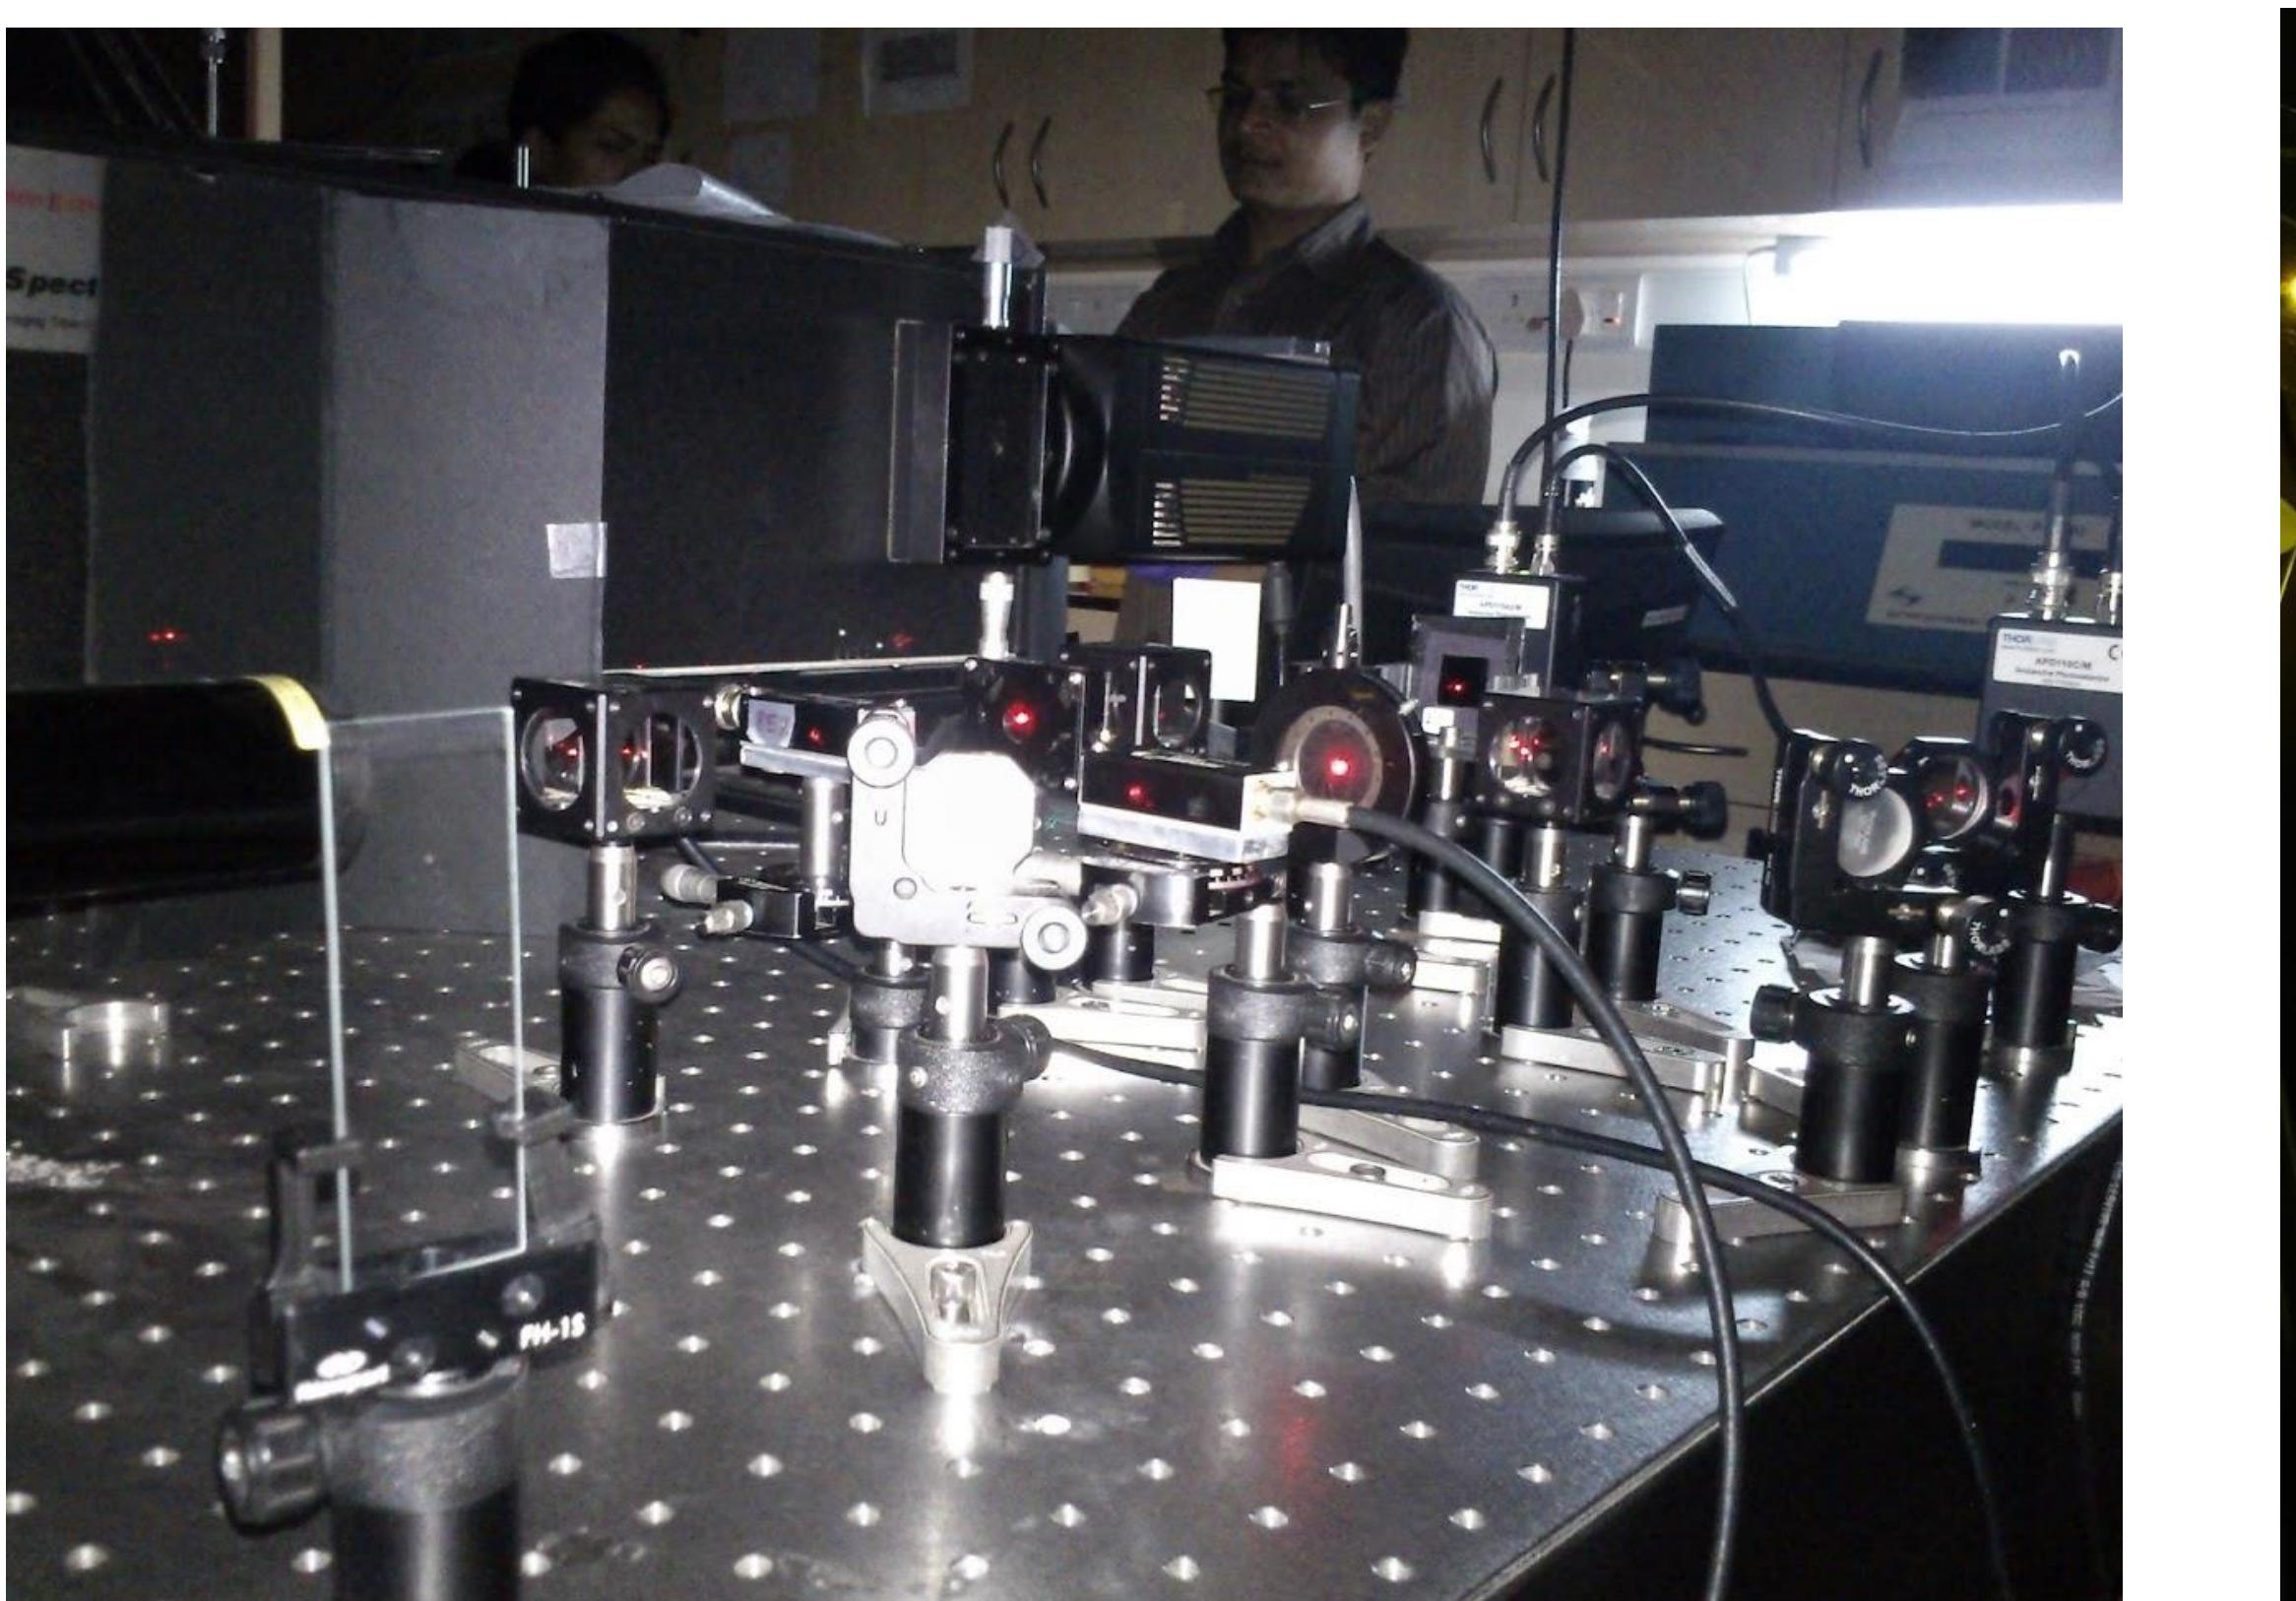

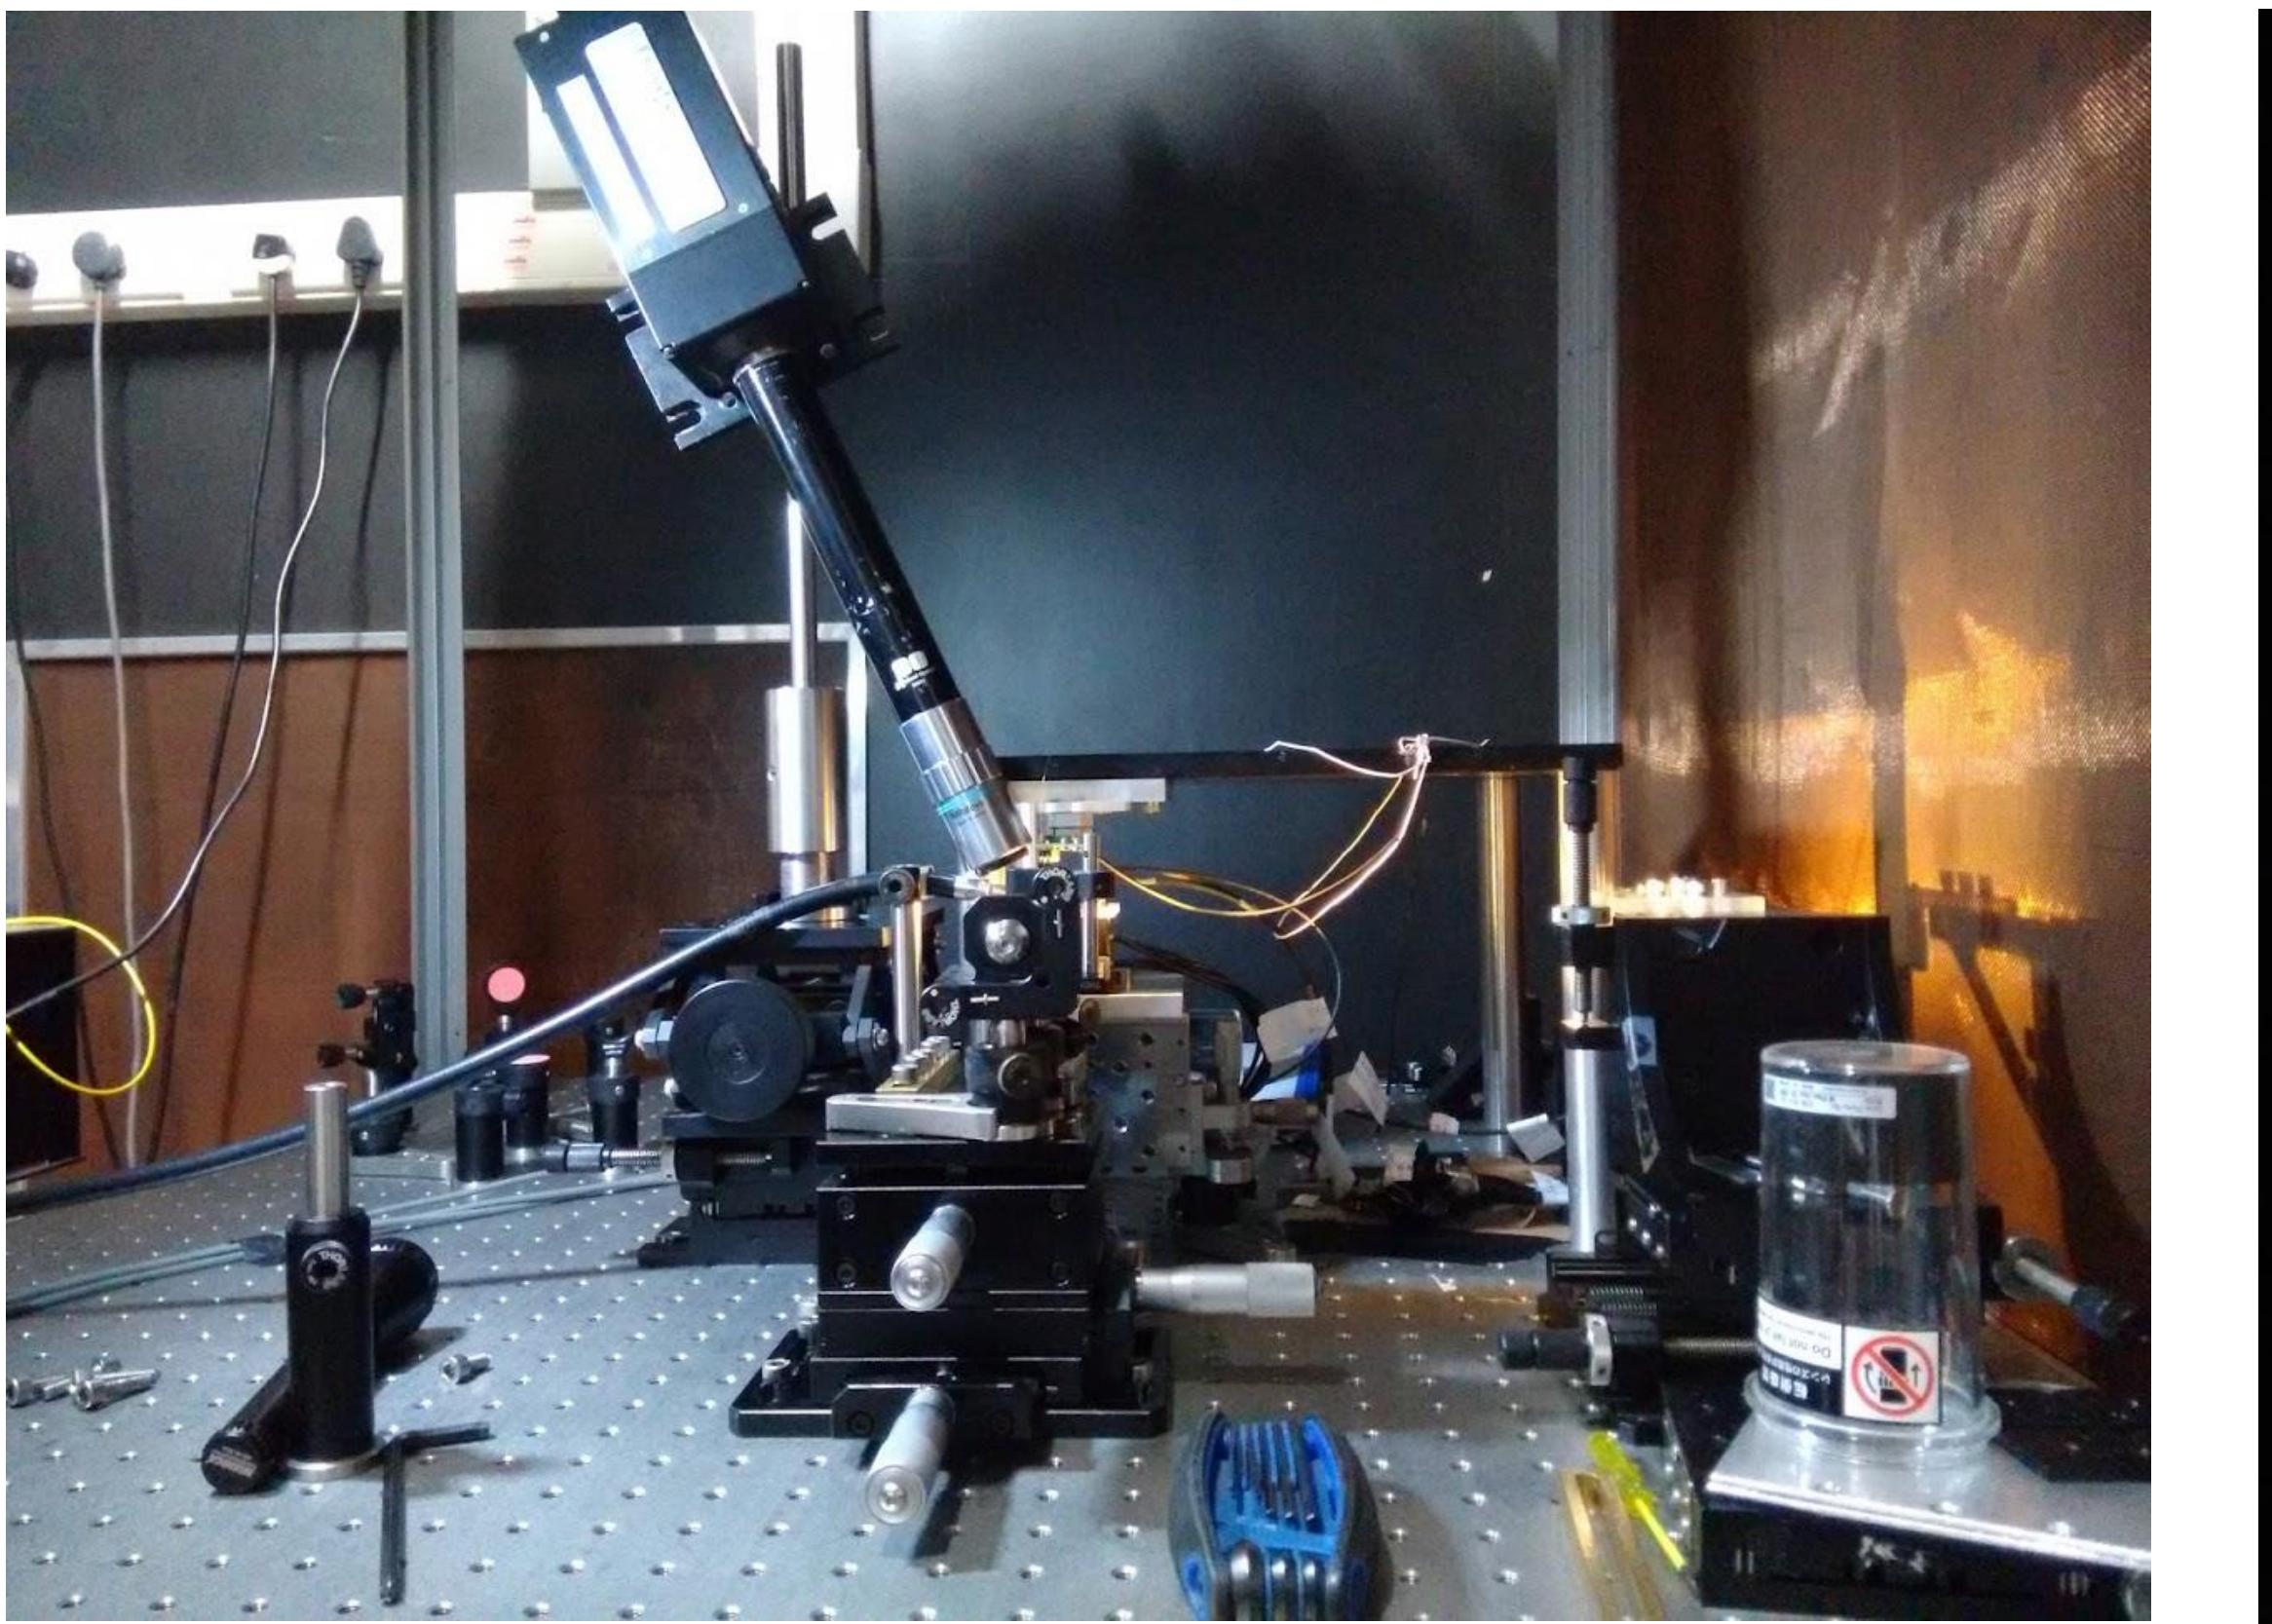

**Hardware**

**Technical Team**

# What makes us Deep tech

# Thank You

# Appendix

# GTM and Roadmap

**GTM Partnership with global IT professional services company – focus on beachhead first**

**Now**

**2028**

**Software sales  
and Hardware  
pilots**

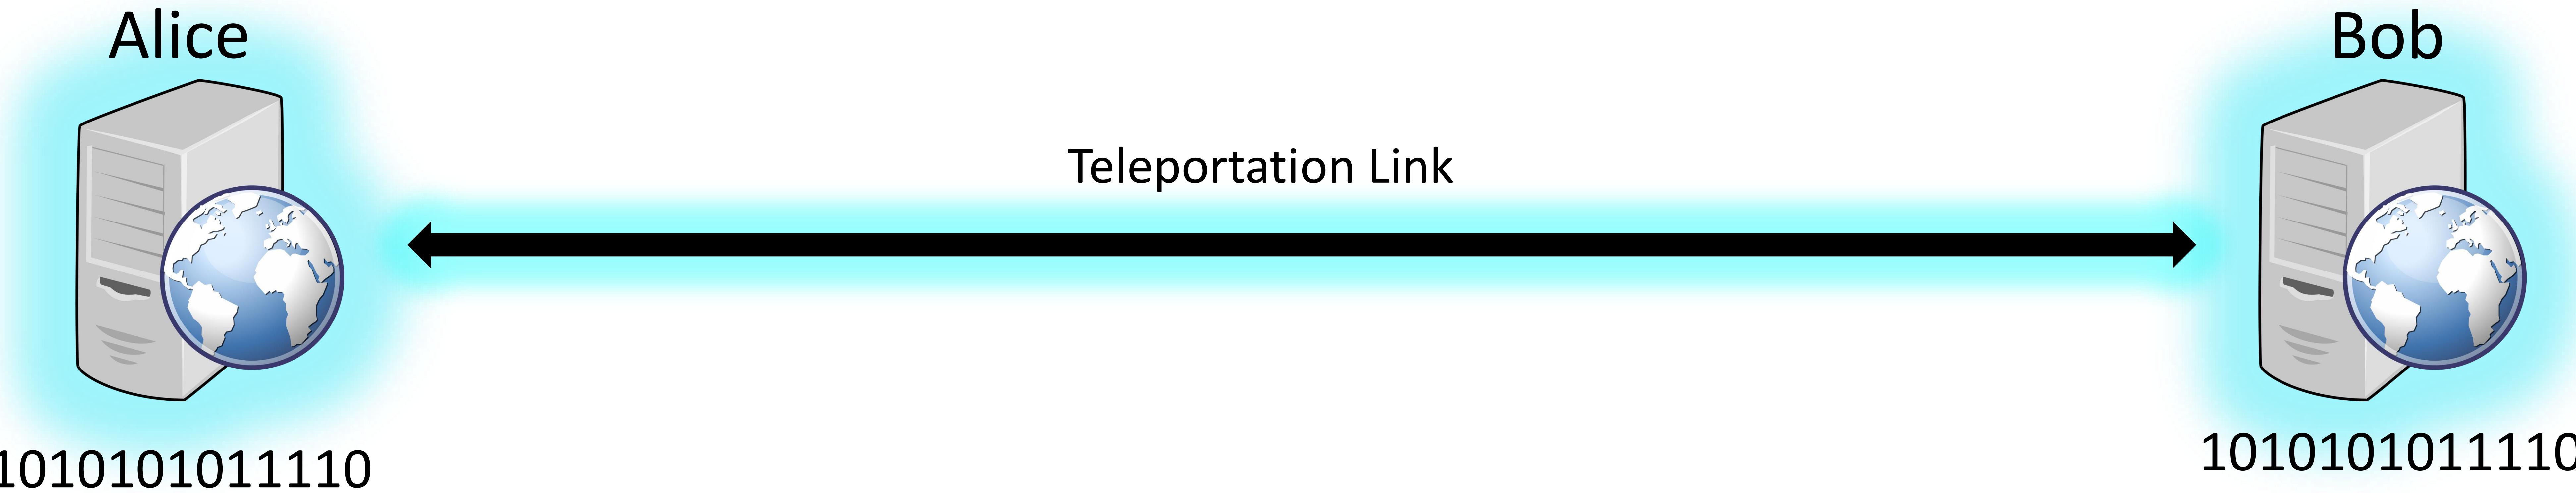

**Quantum  
Repeater System**

## Scalable product adaptable for different sectors and customer segments

**QShield™**

- Modular for different use cases
- Catered to different segments
- Multiple revenue streams

# Inspiration

Data is teleported,  
It never traverses the distance
